MAKEUP REMOVERS & CLEANSERS

FACE CARE

seamer

SILKY CLEANSING MILK

Cleanses | Removes make-up | Softens

A tailored function...

The milky texture of this make-up remover is just the right balance between richness and lightness, perfectly suited to professional care without overloading the skin. It gently removes make-up from the face and eyes, freeing the skin from impurities left on its surface. Active ingredients derived from brown algae, marine water and white tea have been selected for their protective and revitalizing properties. Skin is left clean and luminous.

Active ingredients

Marine water: This unique marine water is enriched with minerals drawn at the heart of the rock during its unusual course: sea water rushes into the depths of the Earth and moves to the surface through the rocks to end on the French island of Noirmoutier. The original journey of this marine water makes its composition unique (manganese, zinc, iron and lithium in particular) and enables it to have highly **revitalizing, replenishing, stimulating and protective effects** on the skin.

Laminaria seaweed extract: This active ingredient, extracted from the brown algae Laminaria digitata, is a mineral concentrate rich in trace elements that **stimulates and energizes** the skin.

White tea extract: Renowned for its antioxidant properties, white tea is an unrivalled beauty active ingredient: **protective, rebalancing, purifying and detoxifying** are just some of the effects attributed to it.

Organic jojoba oil: This oil is extracted from the seeds of the jojoba tree, a shrub found mainly in the Americas (especially Argentina). Its sebum-like composition gives it excellent affinity with the skin. Known for its **emollient properties, it nourishes, softens and provides comfort.**

Plant-based glycerin: Thanks to its emollient properties, glycerin provides the skin with **softness and protection**, increasing the skin barrier function.

Beauty ritual

Apply with a soft cotton pad to face, eyes and neck, using light, circular movements.

REF: 1L0026A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 12 MONTHS
PACKAGING: 500 ML PUMP BOTTLE

ENERGIZING TONIC LOTION

Cleanses | Tones | Softens

A tailored function...

A perfect blend of vitality and freshness, this lotion removes traces of make-up and impurities while giving the skin a breath of energy. Extracts of brown seaweed, marine water, ginseng and white tea, offer the skin their energizing benefits to awaken the complexion. Nicely scented, skin is clean and revitalized.

Active Ingredients

Marine water: This unique marine water is enriched with minerals drawn at the heart of the rock during its unusual course: sea water rushes into the depths of the Earth and moves to the surface through the rocks to end on the French island of Noirmoutier. The original journey of this marine water makes its composition unique (manganese, zinc, iron and lithium in particular) and enables it to have highly **revitalizing, replenishing, stimulating and protective effects** on the skin.

Laminaria seaweed extract: This active ingredient, extracted from the brown algae Laminaria digitata, is a mineral concentrate rich in trace elements that **stimulates and energizes** the skin.

Ginseng extract: Ginseng is a medicinal plant native to Asia, renowned for centuries. In cosmetics, it is prized for its **energizing and revitalizing effects** that boost skin radiance.

White tea extract: Renowned for its anti-oxidant properties, white tea is an unrivalled beauty ingredient: **protective, rebalancing, purifying and detoxifying** are just some of the effects attributed to it.

Plant-based glycerin: Thanks to its emollient properties, glycerin provides the skin with **softness and protection**, increasing the skin barrier function.

Beauty Ritual

After cleansing, apply to the face and neck to refresh and tone.
Precautions for use: avoid contact with the eyes. In the event of contact, rinse thoroughly with clean water.

PEELINGS
FACE CARE

seamer

DOUBLE EXFOLIATION SCRUB

Two-step exfoliation | Illumination effect | Sweetness

A tailored function...

This gel-cream scrub distinguishes itself through a dual exfoliation process: initially, a mechanical action facilitated by sand grains that eliminate dead skin cells and impurities, allowing the skin to breathe; and subsequently, a chemical action driven by succinic acid and a blend of AHAs that enhance the exfoliation. The revitalizing extract of brown algae serves as the final enhancement to this treatment.

Active Ingredients

Tahitian black sand: The grains of sand that constitute the renowned black sand beaches of Tahiti originate from the erosion of basalt, the volcanic rock that created the island. These natural exfoliating particles **efficiently eliminate dead skin cells** and impurities.

AHA Complex (Lactic and Malic Acids): Alpha Hydroxy Acids (AHAs) are compounds derived from fruits and various foods that facilitate **skin exfoliation without the need for mechanical intervention**. In this formulation, the synergy of lactic and malic acids **effectively eliminates** dead skin cells by disrupting the bonds that adhere them to the skin's surface.

Laminaria seaweed extract: this active ingredient, derived from the brown seaweed Laminaria digitata, is a mineral concentrate abundant in trace elements that aids in **stimulating and revitalizing** the skin.

Succinic acid: A potent and milder alternative to salicylic acid, it **enhances the natural exfoliation process and aids in the removal of dead skin cells** (ex vivo tests). Additionally, it contributes to the **reduction of excess sebum and skin imperfections** (in vivo tests).

Beauty Ritual

Apply a small amount of gel to a slightly damp face and gently exfoliate using your fingertips. Rinse thoroughly with clear water.
Precautions for use: avoid contact with the eyes. In the event of contact, rinse thoroughly with clean water.

REF: 1P0027D - DLUO : 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 200ML TUBE

PARTICLE-FREE AHA GENTLE SCRUB

Exfoliates | Highly comfortable | Radiance

A tailored function...

This melting, grain-free scrub is a delight for even the most delicate skin. Its soft texture transforms into a light oil as it is applied. The AHAs complex and the succinic acid in its formula gently free the skin of dead cells and impurities. To enhance skin radiance, star fruit extract is combined with revitalizing and energizing marine extracts. The face feels soft and breathes again.

Active Ingredients

Remineralizing marine complex: This complex, combining extracts of brown kelp and red Chondrus crispus algae, is a mineral concentrate rich in trace elements that **stimulates and energizes the skin.**

Sea fennel extract: is a small maritime plant that grows on the extreme shores of the sea. Exposed to wind and sea spray, it is resistant to salt and drought. It has particularly interesting properties in cosmetics, thanks to its composition in vitamin C and mineral salts, but also to its richness in polyphenols (antioxidant). These elements give sea fennel **tonic, antioxidant and softening** properties.

AHAs complex (lactic acid and malic acid): AHAs (Alpha-hydroxy acids) are molecules found in particular in fruits that have the ability to exfoliate the skin without mechanical action. They gently lift off surface dead cells by weakening the bonds that hold them to the skin surface. They enable **to renew the skin and boost its radiance**.

Succinic acid: This succinic acid is obtained by biotechnology from corn starch. An effective alternative to salicylic acid while being gentler, it boosts the natural desquamation process and **helps eliminate dead cells** (ex vivo tests). It also **reduces the excess sebum and skin imperfections** (in vivo tests).

Starfruit extract: Starfruit is a tropical fruit from the carambola tree. It is called "star fruit" because of the shape it produces when cut. It is prized for its vitamin C, beta-carotene and polyphenol content, giving it **antioxidant and radiance-enhancing** properties.

Beauty Ritual

Apply to cleansed, perfectly dry skin, avoiding the eye contour area. Leave on for a few minutes, then massage in with circular movements until the gel transforms into a soft oil. The transformation of the texture may be more or less fast, depending on skin type. Rinse off with lukewarm water.
Precautions for use: Avoid contact with eyes. In case of contact, rinse thoroughly with clear water.

FACIAL MASSAGE

FACE CARE

seamer

CLOUD MASSAGE

Comfort | Sculpting | Well-being

A tailored function...

This airy and ultra-melting massage balm offers a prolonged sense of well-being throughout the entire treatment. Delicately fragranced, it transforms into a cream and then into an oil that gradually melts into the skin.

Active Ingredients

Mimosa wax: this wax, extracted from mimosa flowers, is naturally composed of waxy esters and phytosterols, which **prevent skin dehydration**.

Jojoba wax: jojoba wax, known for its **nourishing properties**, protects the skin from dehydration. Ideal as a massage base, it provides exceptional slip for a high-quality massage.

Beeswax: beeswax enhances the film-forming properties of this formula. Delicately fragranced and incredibly soft to the touch, this beeswax **nourishes the skin**.

Brown algae extract: this active ingredient, extracted from the brown algae Laminaria Digitata, is a concentrate of osmolytes: small organic molecules naturally present in the algae. This high concentration of osmolytes **helps to hydrate, prevent dehydration** and protect the skin from external aggressors. (In vitro tests).

Sunflower oil: very rich in vitamin E and omega-6, sunflower oil is known for its softening and nourishing properties.

Beauty Ritual

Apply the balm and gradually melt it into the skin with gentle massage movements.

Precautions for use: avoid contact with the eyes.

REF: 2C0058B - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 200G BUCKET

MASKS
FACE CARE

INTENSE RADIANCE FRESH MASK

Fresh | Hydrating | Revitalizing

A tailored function...

Hydration is essential for a beautiful skin. The active ingredients in this mask have been carefully selected for their properties that meet this fundamental need of the skin. Moisturizing active ingredients provide the skin with water, help it circulate and retain it within the skin. The sensation of freshness provided by the gel is reinforced by the invigorating, radiance-boosting freshness of menthol. The skin is radiant and full of vitality.

Active Ingredients

Hydra-energizing marine complex: This moisturizing and energizing active ingredient is a marine complex offering a unique source of plant taurine. It combines an extract of the red seaweed Jania rubens, rich in plant taurine, to boost skin energy, and a carrageenan (polysaccharide extracted from red algae) with **moisturizing and protective** properties. This complex provides a **moisturizing flash effec**t (in vivo test - after a single application) and **an anti-fatigue boost** (in vivo test - after a single application) by recharging the skin with energy. These properties help to **smooth the skin and to reduce signs of fatigue** (in vivo test).

Aquaporin booster moisturizing active ingredient: This active ingredient is a complex of glycerin and glyceryl glucoside of plant origin. A combination of glycerine and glucose, glyceryl glucoside is naturally present in micro-algae: subjected to saline stress, they accumulate this molecule to protect themselves from dehydration. This active ingredient **moisturizes skin instantly and durably** (up to 24 hours) (in vivo tests) by boosting the formation of aquaporins (in vitro tests), proteins that act as channels to transport water within the skin.

Sodium hyaluronate (1800 - 2200 KDa): Sodium hyaluronate is the sodium salt of hyaluronic acid. Hyaluronic acid is one of the skin's most important building blocks. Its exceptional capacity to retain water makes it **a unique moisturizing active ingredient**. The sodium hyaluronate used in this formula has a high molecular weight (1800 to 2200 kDa). It forms a non-occlusive moisturizing film on the skin's surface (in vivo test), giving a soft, velvety appearance.

Refreshing active ingredient: this active ingredient derived from menthol provides a **revitalizing and energizing feeling of freshness**.

Plant glycerin: Thanks to its emollient properties, glycerin provides the skin with **softness and protection**, increasing the skin barrier function.

Beauty Ritual

Apply a fairly thick layer once or twice a week to the entire face and neck, avoiding the eye contour area. Leave on for 15 minutes (this mask does not dry), then rinse off with lukewarm water.
Precautions for use: in case of direct contact with eyes, rinse thoroughly with clear water.

REF : 1M0147A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 200 ML TUBE

ACTIVE NOURISHING MASK

Enveloping | Protective | Comfort

A tailored function...

Ideal for skin in need of comfort and vitality, this cream mask wraps the face in its cocooning texture to provide all its benefits. Its formula is a perfect blend of organic rosehip, borage, and wheat germ oils with proven nourishing properties. Soothing and protective golden seaweed extract gives skin the care it deserves. Fully nourished, comforted and protected, skin regains a sense of softness and well-being.

Active Ingredients

Soothing and protective golden seaweed extract: Extracted from Laminaria ochroleuca, also known as golden seaweed, this active ingredient is inspired by the seaweed's ability to adapt to a stressful marine environment. It acts as a shield that **soothes skin immediately and over the medium term** (in vivo test), **moisturizes and reduces dehydration wrinkles** (in vivo test). It also improves the cutaneous barrier, reinforces the skin's structure, and protects it against stress induced by UV and blue light (in vitro test). It improves skin quality, making it softer and firmer.

Organic rosehip oil: This oil, extremely rich in essential fatty acids, is obtained by cold-pressing the seeds of the Chilean rosehip. Its composition enables it to **nourish and improve the appearance of skin** lacking vitality and marked by the first effects of time.

Borage oil: This oil is extracted from the seeds of the borage flower, with its characteristic blue color and star shape. Its **nourishing and antioxidant** properties make it particularly suitable for devitalized skin. It is also known for restoring radiance to dull complexions.

Wheat germ oil: Highly **nourishing and protective**, this rich plant oil delights dry skin by providing comfort and helping to restore the hydrolipidic film.

Plant glycerin: Thanks to its emollient properties, glycerin provides the skin with **softness and protection**, increasing the skin barrier function.

Beauty Ritual

Apply a fairly thick layer once or twice a week to the entire face and neck, avoiding the eye contour area. Leave on for 15 minutes, then remove excess with lukewarm water.

PACKAGING: 200 ML TUBE

ANTI-AGING PEEL-OFF MASK

Eternal youth | Tightening | Radiant

A tailored function...

In contact with water, the ultra-fine powders of our peel-off masks rubberize thanks to their high content of marine alginate (a natural substance derived from brown algae). Once applied to the face, they provide a refreshing second-skin effect. This mask, with an edelweiss scent, contains precious anti-aging active ingredients at the heart of its formula: edelweiss extract is combined with a tightening agent and vitamin C. Each of these active ingredients has properties targeting the first signs of age and helps restore an ultra-radiant finish to the skin. This mask will help you reach new heights... of beauty!

Its little extra: it peels off in one piece, no need to rinse!

Active Ingredients

Tightening active ingredient: This natural **tightening active ingredient** is made from the combination of acacia gum and a polysaccharide produced by a microorganism that lives in symbiosis within the roots of a plant. This combination forms a film on the skin's surface that contracts and tightens the skin through a mechanical effect.

Vitamin C: Its tonic and antioxidant properties help **provide the skin with the strength and vitality** it needs to face external aggressors, while restoring a fresh complexion.

Edelweiss flower extract: Edelweiss, also known as the Snow Immortal or Star of the Glaciers, is a flower that only grows at high altitudes. The extreme conditions it is exposed to have enabled it to develop an **effective protection and defense system**, which gives it its renowned anti-aging properties.

Beauty Ritual

Pour 25ml of water at 20°C over the 25g of powder. Mix vigorously until a smooth paste is obtained.
Apply immediately to the face, avoiding the eye contour. Leave on for 15 minutes, then remove the mask in one piece.

Precautions for use: In case of direct contact with eyes, rinse with clean water. Do not breathe dust.

REF : H00085A - BBD: 36 MONTHS
PACKAGING: 25G SACHET

PEEL-OFF PUR'CONTROL SHAKER MASK

Detox | Anti-pollution complex | Purifying

A tailored function...

In just a few seconds, powder and water merge together using the shaker. This peel-off mask surprises with the speed and ease of its preparation. Upon contact with water, the powder instantly transforms into a smooth cream that spreads and is removed just as easily. Thanks to the detoxifying power of the anti-pollution complex, the Pur'Control Shaker Mask helps purify the skin, eliminating impurities and excess sebum.

Active Ingredients

Charcoal powder extract: activated charcoal, known for its **detoxifying and purifying properties**, has an absorption power that allows it to retain impurities and toxins.

Anti-pollution complex: this complex is composed of ivy extract, sunflower and rice bran. This combination contributes to an overall "anti-pollution" action, **working against the cytotoxic effects of pollutants**.

Beauty Ritual

Pour 100ml of water at 20°C into the shaker, then add the 25g powder sachet. Close the shaker and shake vigorously for a few seconds until the mixture falls silent.

Apply immediately to the face, avoiding the eye contour. Leave on for 10 minutes, then remove the mask in one piece.

Precautions for use: In case of direct contact with eyes, rinse with clean water. Do not breathe dust.

REF: H00045B - BBD : 36 MONTHS
PACKAGING: 25G SACHET

ESSENTIAL COMFORT PEEL-OFF MASK

Soothing | Comfort | Delicacy

A tailored function...

In contact with water, the ultra-fine powder of peel-off masks rubberizes thanks to their high alginate content (a natural substance derived from brown algae). Once applied to the skin, the mask refreshes and fits the contours of the face like a second skin. Formulated to improve skin comfort, this mask reveals its richness in blueberry extract, vitamin C and chamomile essential oil to provide the skin a real moment of softness.

Its little extra: it peels off in one piece, no need to rinse!

Active Ingredients

Blueberry extract: This small blue berry with slightly acid fruity notes is rich in vitamin C and flavonoids. These two **antioxidants** help the skin to neutralize free radicals and combat the signs of time.

Sodium ascorbate: Sodium ascorbate is the sodium salt of vitamin C and has similar virtues. Vitamin C is an exceptional **anti-ageing and antioxidant** active ingredient. It stimulates collagen synthesis, protects skin from free radicals and is involved in melanin synthesis. The skin look spectacularly healthy!

Chamomile essential oil: Moroccan chamomile essential oil is obtained by steam distillation of Ormenis multicaulis flowers. Its fruity and woody fragrance offers to this skincare a **relaxing atmosphere**.

Beauty Ritual

Pour 90ml of water on the 30g of powder. Mix briskly the water on the powder until forming a homogeneous and smooth paste. Apply the paste immediately on the face, avoiding the eye contour area. Leave it acts for 15 minutes. Remove it in one piece.

Precaution of use : in case of eye contact rinse with water. Do not breathe dust.

REF: K00066A - BBD: 36 MONTHS
PACKAGING: 30G SACHET

HYALURONIC ACID BIOCELLULOSE MASK

Second skin effect | Professional efficacy | Plumping actives

A tailored function...

The fine structure of the bio-cellulose mask fibers, obtained through the natural fermentation of coconut water, provides a second-skin sensation that perfectly adheres to the contours of the face. Upon application, this mask forms a delicate membrane that infuses the skin with its key active ingredients — hyaluronic acid and marine collagen — for an instant plumping and hydrating effect.

Active Ingredients

Marine collagen: one of the skin's major structural components, collagen is responsible for its elasticity and resilience. Marine collagen, which closely resembles human collagen, also provides **deep hydration and helps improve skin firmness**.

Polysaccharide (a combination of sugars)**:** this moisturizing active ingredient forms a soft film on the skin's surface (in vivo tested). It helps stimulate and tone the skin while delivering **softness and lasting comfort**.

Sodium hyaluronate: once applied, this ingredient converts into hyaluronic acid, a molecule naturally present in the skin that acts like a sponge — attracting and retaining large amounts of water. Used here in a high molecular weight form (1800–2200 kDa), it helps **preserve skin structure and maintain optimal hydration** levels.

Beauty Ritual

After carefully washing your hands, open the jar and remove the lid, placing it upside down on a clean surface. Take a patch with the spatula and place it under the eye. Press gently to ensure perfect adhesion to the skin, then do the same with the second patch. Leave on for around 15 minutes, then remove the patches.

REF: 1S0031E - BBD: 36 MONTHS
PACKAGING: SACHET

RADIANCE & SMOOTHING HYDROGEL EYE PATCHES

Hydrating ingradients | Energizing | Illuminating

A tailored function...

Escape to the shores of paradise and treat your eyes to a tropical getaway: lagoon-blue patches with exotic fruit extracts. The unique, active texture of these patches is due to the natural polymers they contain: carrageenans. These polysaccharides, which form the cell walls of red algae, are combined with water to form an ultra-fresh, film-forming gel that hugs the eye contour perfectly for targeted action. Illuminating mango and pineapple extracts combine with hydra-energizing marine active ingredient and sodium hyaluronate for a sensorial experience you won't forget.

Active Ingredients

Hydra-energizing marine complex: This **anti-aging, energizing and moisturizing** active ingredient is a marine complex offering a unique source of plant taurine. It combines an extract of the red seaweed Jania rubens, rich in plant taurine, to boost skin energy, and a carrageenan (a polysaccharide extracted from red seaweed) with moisturizing and protective properties. This complex provides a **hydrating flash effect** (in vivo test - after a single application) and **an anti-fatigue boost** (in vivo test - after a single application) by recharging the skin with energy. These properties enable it to smooth the skin, reduce signs of fatigue and the first signs of aging, and protect the skin's youthful capital by delaying the formation of wrinkles (in vivo tests).

Sodium Hyaluronate: is the sodium salt of hyaluronic acid. The latter is one of the most important building blocks of the skin. Its exceptional ability to retain water makes it a **unique hydrating active ingredient**. The sodium hyaluronate used in this formula is of high molecular weight (1800 to 2200 kDa). It forms a non-occlusive moisturizing film on the skin's surface (in vivo test), leaving it feeling **soft and velvety**.

Pineapple extract: originally from Brazil and Argentina, pineapple is found in all tropical regions. A key ingredient for **reviving the complexion**, it is also known for its **brightening and soothing** properties.

Mango extract: mango is known for its richness in vitamins and antioxidants, giving it **brightening, soothing and protective** properties.

Vegetable glycerin: thanks to its emollient properties, glycerin brings **softness and protection** to the skin by enhancing the skin barrier functions.

Beauty Ritual

After carefully washing your hands, open the jar and remove the lid, placing it upside down on a clean surface. Take a patch with the spatula and place it under the eye. Press gently to ensure perfect adhesion to the skin, then do the same with the second patch. Leave on for around 15 minutes, then remove the patches.

PACKAGING: BOX OF 30 PAIRS

SKIN TREATMENTS

FACE CARE

HYDRA-INTENSE SERUM

Silky | Hydrating | Comfort

A tailored function...

A subtle blend of richness and lightness, this serum with a silky touch upon application envelops the face before becoming one with the skin. Its formula combines sodium hyaluronate, an expert at rebalancing skin hydration*, with a marine complex that provides immediate and long lasting hydration. The face regains the comfort and the velvety softness of a carefully nourished and hydrated* skin.

*** Effectiveness test conducted with 10 volunteers at T2h - T4h - T8h.**

Active Ingredients

Moisturizing marine complex: Obtained by biotechnology, this complex is inspired by the seaweed microbiota. It is composed of brown seaweed sugars (oligosaccharides) that form a hydration reservoir, in which amino acids from Chlorella vulgaris micro-algae and minerals from sea water are trapped. The skin microbiota, by using the brown seaweed sugars, releases continuously the amino acids and minerals which are NMF components (Natural Moisturizing Factors), genuine moisturizing nutrients. This complex thus enables to ensure **an immediate and long-lasting hydration** (72 hrs after 1 application) (in vivo tests).

Sodium hyaluronate (1800 – 2200 kDa): Sodium hyaluronate corresponds to the sodium salt of hyaluronic acid. The latter is one of the most important building blocks of the skin. Its exceptional capacity to retain water makes it a unique **hydrating active ingredient**. The sodium hyaluronate in this formula has a high molecular weight (1800 to 2200 kDa), and forms on the surface of the skin a non-occlusive moisturizing film (in vivo test) which gives a soft and velvety appearance.

Plant glycerin: Thanks to its emollient properties, glycerin provides the skin with **softness and protection**, increasing the skin barrier function.

Beauty Ritual

Apply morning and evening, under the skincare cream, to perfectly cleansed face and neck.
Precautions for use: In case of direct contact with the eyes, rinse with clear water.

REF : 1S0199A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 30 ML DROPPER BOTTLE

ANTI-AGING FACE SERUM

Elixir | Unifying | Youth

A tailored function...

Each drop of this serum offers the face an exquisite fusion of plant oils. Each one contains a secret to revive the skin's radiance* and beauty. Their action is reinforced by the active ingredient derived from sea fennel, which improves the skin's overall appearance* by acting on both radiance and protection of the skin's barrier. Skin appears brighter*, evened out* and smoothed*.
***Use test carried out on 22 volunteers**

Active Ingredients

Active ingredient derived from sea fennel: Sea fennel is a halophyte plant, which means it is highly resistant to the extreme living conditions of the sea (salt, wind, UV rays, temperature variations, etc.). The molecules extracted from this plant play a role in the **luminosity and evenness** of the skin, improving radiance (in vivo test). They also reinforce skin protection (in vitro test) by stimulating the synthesis of major components of the skin barrier (ceramides and filaggrin).

Borage oil: This oil is extracted from the seeds of the borage flower, with its characteristic blue color and star shape. Its **nourishing** properties make it particularly suitable for devitalized skin.

Organic argan oil: Argan oil comes from the argan tree, a thousand-year-old tree that grows mainly in the arid areas of southwestern Morocco. This nourishing oil is known for its **anti-aging benefits**.

Organic jojoba oil: This oil is extracted from the seeds of the jojoba tree, a shrub found mainly in the Americas (especially Argentina). Its sebum-like composition gives it excellent affinity with the skin. Known for its emollient properties, it **nourishes, softens and provides comfort**.

Sweet almond oil: Sweet almond oil is an oil extracted from the fruit of the almond tree. It is known to be a sweet, very creamy oil rich in vitamins A, E and fatty acids. It **nourishes and provides comfort** during the application of this treatment.

Beauty Ritual

Take a few drops of serum with the pipette and place them in the palm of your hand. Rub palms together and apply to thoroughly cleansed face and neck. Can be used alone or under skincare cream.
Precaution for use: In case of direct contact with the eyes, rinse with clear water.

REF : 1S0223A- DLU : 36 mois / PERIOD AFTER OPENING: 12 MONTHS
PACKAGING: 30 ML DROPPER BOTTLE

HYDRA-INTENSE FACE CARE

Melting | Hydrating | Light

A tailored function...

The delicious texture of this sensory emulsion melts on the skin and lets the active ingredients work to provide the skin with long lasting hydration*: a marine complex ensures a hydrating flash effect, while low and high molecular weights sodium hyaluronates rebalance the skin's hydration; the whole is boosted by nourishing shea butter and squalane. Quenched, the skin regains comfort and softness.

*** Effectiveness test conducted with 10 volunteers at T4h - T8h - T24h.**

Active Ingredients

Hydra-energizing marine complex: This moisturizing and energizing active ingredient is a marine complex that combines an extract of the red alga Jania rubens rich in vegetable taurine to boost the energy of the skin and a carrageenan (polysaccharide extracted from red algae) with **moisturizing and protective** properties. This complex provides a moisturizing flash effect (in vivo test - after a single application) and has an anti-fatigue boost action (in vivo test - after a single application).

Sodium hyaluronate (1800 – 2200 kDa): Sodium hyaluronate corresponds to the sodium salt of hyaluronic acid. The latter is one of the most important building blocks of the skin. Its exceptional capacity to retain water makes it a **unique hydrating active ingredient**. The sodium hyaluronate in this formula has a high molecular weight (1800 to 2200 kDa), and forms on the surface of the skin a non-occlusive moisturizing film (in vivo test) which gives a soft and velvety appearance.

Shea butter: Extracted from the fruits of the shea tree, a tree native to West Africa, shea butter is extremely rich in fatty acids and vitamins. It is known to **nourish, protect and provide softness and suppleness** to the skin.

Squalane: This squalane 100% of natural origin is obtained by bio-fermentation of cane sugar. Due to its biomimetic structure, that is similar to membrane lipids, this oil has an excellent affinity with the skin. Nourishing, it restores **comfort to the skin and limits its dehydration**.

Plant glycerin: Thanks to its emollient properties, glycerin provides the skin with **softness and protection**, increasing the skin barrier function.

Beauty Ritual

Apply morning and evening to perfectly cleansed face and neck.

REF : 1C0228A - BBD: 36 MONTHS / PERIOD AFTER OPENING 12 MONTHS
PACKAGING: 200 ML TUBE

ANTI-AGING FACE CARE

Filling | Plumping | Youthful

A tailored function...

What could be better than a care product with a filling texture and just the right amount of anti-aging active ingredients to make the signs of time a distant memory? This cream combines hyaluronic acid with a biomimetic peptide and a global anti-aging active ingredient derived from white hibiscus and baobab. And because nourishing your skin is also the key to preserving its youthfulness, squalane and mango butter complete this formula brilliantly.

Active Ingredients

Biomimetic anti-aging peptide: This biomimetic anti-aging active ingredient is a peptide (L-Carnosine) found in the human body which has the ability to boost the skin's natural defenses. It has remarkable antioxidant and anti-glycation properties. This enables it to actively **protect the skin from damage caused by the sun** (IR, UV, visible light) (in vivo test) and thus **prevent photo-aging**. It also protects against **glycation** (the binding of sugars to proteins) (in vitro test), which particularly affects elastin and collagen in the skin, making them stiffer and leading to the appearance of signs of aging.

Sodium hyaluronate (1800 – 2200 kDa): Sodium hyaluronate corresponds to the sodium salt of hyaluronic acid. The latter is one of the most important building blocks of the skin. Its exceptional capacity to retain water makes it a **unique hydrating active ingredient**. The sodium hyaluronate in this formula has a high molecular weight (1800 to 2200 kDa), and forms on the surface of the skin a non-occlusive moisturizing film (in vivo test) which gives a soft and velvety appearance.

White hibiscus - baobab anti-aging complex: This 100% natural active ingredient is the result of an original combination of white hibiscus and baobab fruit extracts. The overall anti-aging action of this active ingredient is due to its multiple properties: it **reduces wrinkles and fine lines, plumps the skin, increases firmness, provides a tightening effect, and improves hydration** (in vivo tests).

Coralline extract: This small red alga, found mainly in the North Atlantic, is known for its **anti-aging properties**. It is a source of bio-available calcium for the skin. To preserve the seaweed's natural resources, this active ingredient is grown in a photo bioreactor.

Squalane: This 100% natural squalane is obtained by bio-fermentation of cane sugar. Thanks to its biomimetic structure, similar to membrane lipids, this oil has excellent affinity with the skin. Nourishing, it restores **comfort to the skin and limits dehydration**.

Mango butter: Derived from the fruit's kernel, mango butter is an excellent **nourisher and has antioxidant** properties that help prevent skin aging. It restores the skin's elasticity and protects it by strengthening its hydrolipidic film.

Beauty Ritual

Apply morning and evening to thoroughly cleansed face and neck. In case of direct contact with the eye, rinse with clean water.

REF : 1C0245A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 200ML TUBE

ESSENTIAL COMFORT CARE

Enveloping | Soothing | Softness

A tailored function...

The enveloping and gentle texture of this cream pampers the most delicate skin. To fulfil its promise, its formula is composed of active ingredients that will be the skin's caring allies. A prebiotic strengthens the microbiome and preserves its balance: by protecting it, it makes the skin an even stronger barrier. Aloe vera and a hydrating and soothing polysaccharide, boosters of comfort and softness, quickly provide a feeling of well-being.

Active ingredients

Coralline extract: This small red alga, found mainly in the North Atlantic, is known for its **anti-aging properties**. It is a source of bio-available calcium for the skin. To preserve the seaweed's natural resources, this active ingredient is grown in a photo bioreactor.

Bioecolia®: this prebiotic is an oligosaccharide obtained from natural sugars. Its structure allows it to serve as a preferential substrate for the microorganisms on our skin. Thus, it **balances and strengthens the microbiome** (in vitro and in vivo tests), which helps both to **preserve the skin's barrier function** (in vivo tests) and to **strengthen its natural defenses** (ex vivo test). It also **improves skin comfort and radiance** (in vivo test).

Polysaccharide (an assembly of sugars) : this active ingredient has the ability to capture and retain water, giving it **short and medium-term hydrating** properties (in vivo test). It also immediately **soothes** the skin by restoring feelings of **comfort and well-being** (in vitro and in vivo tests). Thanks to its film-forming effect, it gives the skin a silky touch.

Aloe vera juice powder: aloe vera is a plant rich in polysaccharides, vitamins, trace elements and amino acids. Known for its **soothing and nourishing** properties, aloe vera is an ideal active ingredient for preserving hydration and pampering delicate skin.

Plant glycerin: Thanks to its emollient properties, glycerin provides the skin with **softness and protection**, increasing the skin barrier function.

Beauty Ritual

Take a few drops of serum with the pipette and place them in the palm of your hand. Rub palms together and apply to thoroughly cleansed face and neck. Can be used alone or under skincare cream.
Precaution for use: In case of direct contact with the eyes, rinse with clear water.

PACKAGING: 200ML TUBE

SCRUBS & PELLINGS

BODY CARE

seamer

GRAPEFRUIT SCRUB

Exfolies | Energizing | Relaxes

A tailored function...

This indulgent scrub, delicately fragranced with citrus, is a true delight for the senses. Different salts have been selected to gently eliminate impurities and smooth the skin's texture. Ideal for a quick exfoliation, it does not require rinsing in the cabin. The skin is left feeling soft, silky and radiant.

Active ingredients

Sea salts: rich in minerals and trace elements, these sea salts **eliminate dead cells and impurities** from the skin's surface and revitalize it.

Brown algae extract: this active ingredient, extracted from the brown algae Laminaria digitata, is concentrated in osmolytes: small organic molecules naturally present in the algae that **help cells resist external stressors**.

Grapefruit seed extract: rich in flavonoids, vitamin C and beta-carotene, grapefruit is known for its **purifying and toning** properties. This natural richness fights against free radicals and gently eliminates impurities from the skin's surface.

Mandarin essential oil: mandarin is a citrus fruit rich in vitamin C. This essential oil, extracted from mandarin, is ideal for **gently relaxing the body**.

Plant glycerin: Thanks to its emollient properties, glycerin provides the skin with **softness and protection**, increasing the skin barrier function.

Beauty Ritual

Apply to **dry skin** all over the body, using circular massage movements. Remove with gloves, a damp cloth or by rinsing in the shower.

Precautions for use: For adult use only. Not recommended for pregnant or breastfeeding women.

REF: 2P0041B - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 1000ML BUCKET

RADIANCE SCRUB WITH SEA FENNEL

Mineral | Energizing | Softness

A tailored function...

The texture of this exfoliating skin care product has been specially developed for rapid exfoliation. It gently reveals the skin's beauty by freeing it of dead cells and impurities, thanks to fine salt crystals. Combined with sea fennel extract, they are also a source of minerals and trace elements beneficial to the skin.

Active ingredients

Sea fennel extracts: Sea fennel is a small, seaside plant that grows on shores at the very edge of the sea. Exposed to wind and sea spray, it is resistant to salt and drought. It has particularly interesting properties in cosmetics, thanks to its composition in vitamin C and mineral salts, as well as its richness in polyphenols (antioxidants). These elements give sea fennel **tonic and antioxidant** properties.

Sea salts: rich in minerals and trace elements, these sea salts **eliminate dead cells and impurities** from the skin's surface and revitalize it.

Plant glycerin: Thanks to its emollient properties, glycerin provides the skin with **softness and protection**, increasing the skin barrier function.

Beauty Ritual

Apply to **dry** skin in circular movements all over the body. Concentrate on areas with thicker skin. In-cabin, this treatment does not require rinsing. Remove with damp gloves or cloth.

REF: 2P0068A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 1000ML BUCKET

INTENSE SCRUB WITH 3 SALTS

Exfolies | Detox | Relaxes

A tailored function...

A true invitation to escape, this scrub gently exfoliates and removes impurities from the skin's surface. Enriched with a refined selection of salts and essential oils, it smooths the skin's texture while providing comfort and well-being. The skin is left silky, radiant, and perfectly soft. Ideal for prolonged exfoliation treatments.

Active ingredient

Sea salts: rich in minerals and trace elements, this exclusive blend of Dead Sea, and two French salts gently **removes dead cells and impurities** from the skin's surface. This synergy of salts helps restore the skin's **natural glow and softness**.

Essential oils: this unique combination of cypress, rosemary, geranium, petitgrain, lavandin, and chamomile essential oils is perfect for aromatherapy. Known for their relaxing and balancing properties, these oils promote comfort and a sense of well-being.

Plant glycerin: Thanks to its emollient properties, glycerin provides the skin with **softness and protection**, increasing the skin barrier function.

Beauty Ritual

Apply to dry skin over the entire body. Massage in circular motions, focusing on rougher areas to remove impurities, then rinse with water.

Precautions for use: For adult use only. Not recommended for pregnant or breastfeeding women.

REF: 2P0042A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 1000ML BUCKET

CRYSTAL PEELING WITH OILS & FLOWER PETALS

Intense exfoliation | Nourrishing the skin | Purifiying

A tailored function...

Enriched with oil-coated salts, this energizing scrub provides intense exfoliation while deeply nourishing the skin. Its moisturizing and exfoliating ingredients work in harmony to remove impurities from the skin's surface. With its delicate citrus notes, this body polish leaves the skin soft, smooth, and full of vitality !

Active ingredients

Exfoliating salts: rich in minerals and trace elements, these marine salts gently **buff away dead skin cells and impurities** while **revitalizing** the complexion.

Apricot kernel oil: extracted from apricot seeds, this **nourishing** oil envelops the salt grains in a protective layer, ensuring optimal **glide and comfort** throughout the treatment.

Sunflower oil: naturally rich in vitamin E and omega 6, this emollient oil softens, **nourishes, and protects** the skin, leaving it smooth and supple.

Calendula petals: known for their soothing and protective properties, these vibrant orange petals bring **softness and comfort** to the skin.

Petitgrain essential oil: this essential oil lends the scrub its gentle, relaxing fragrance, promoting both **serenity and well-being**.

Beauty Ritual

Apply a small amount of scrub to the entire body and massage in circular motion. Let the nourishing oils soak in for a few moments, then rinse with warm water.
Works under thermal water.

Precautions for use: For adult use only. Not recommended for pregnant or breastfeeding women.

REF: 2P0053B - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 3 KG BUCKET

COPPER PEELING WITH OILS & DEAD SEA SALT

Relaxes | Nourishes the skin | Gentle exfoliation

A tailored function...

This gentle scrub delicately exfoliates while intensely nourishing the skin. Its high content of plant oils allows the fine Dead Sea salts to be enveloped in a rich, comforting texture. The formula provides a progressive, long-lasting exfoliation suitable for all areas of the body, leaving the skin enveloped in the warm, captivating fragrance of an oriental ritual.

Active ingredients

Dead Sea salt: renowned for its exceptionally high concentration of potassium, magnesium (a natural stress reliever), and calcium, Dead Sea salt delivers a **remineralizing and relaxing exfoliation** that restores balance and vitality to the skin.

Apricot kernel oil: extracted from apricot seeds, this **nourishing** oil envelops the salt grains in a protective layer, ensuring optimal **glide and comfort** throughout the treatment.

Sunflower oil: naturally rich in linoleic acid and vitamin E, sunflower oil is prized for its **nourishing and emollient** properties. It **softens, smooths, and enhances the skin's radiance.**

Beauty Ritual

Apply a small amount of scrub to the entire body and massage in circular motion.
Let the nourishing oils soak in for a few moments, then rinse with warm water.
Works under thermal water.

PACKAGING: 3 KG BUCKET

GENTLE CITRUS SCRUB

Gentle exfoliation | Nourishes the skin | Invigorating

A tailored function...

This citrus scrub envelops the skin in a deliciously indulgent fragrance*. The fine salts coated in delicate nourishing oils offer a gentle and long-lasting exfoliation that leaves the skin luminous and velvety.

*A unique selection of essential oils to enchant the senses.

Active ingredients

Sea salt and Dead Sea salt: these salts have a high concentration of potassium, magnesium and calcium, allowing for a **remineralizing exfoliation**.

Sunflower oil: naturally rich in linoleic acid and vitamin E, sunflower oil is prized for its **nourishing and emollient** properties. It **softens, smooths, and enhances** the skin's radiance.

Essential oil cocktail: this unique combination of 7 essential oils of red mandarin, caraway, orange, litsea cubeba, frankincense, coriander and pepper is ideal for aromatherapy. Known for their **relaxing properties**, these essential oils enhance the **well-being effect** of this treatment and bring **a boost of vitality** to the skin.

Spirulina oil: Spirulina is naturally rich in amino acids, proteins and vitamins. This richness gives it **exceptional revitalizing and nourishing** properties.

Beauty Ritual

Apply a small amount of scrub to the entire body and massage in circular motion. Let the nourishing oils soak in for a few moments, then rinse with warm water.
Works under thermal water.

Precautions for use: For adult use only. Not recommended for pregnant or breastfeeding women.

MASSAGE BALM WITH ESSENTIAL OILS

Relaxes | Long-lasting massage | Nourishes the skin

A tailored function...

Enriched with essential oils and beeswax, this massage balm offers a true moment of relaxation and well-being. Its blend of soothing active ingredients ensures a long, enveloping massage that gently releases areas of tension. The formula is perfectly suited for use during affusion (under thermal rain) treatments.

Active ingredients

Laminaria oil: this oily extract of laminaria is a natural active ingredient rich in minerals and trace elements that **stimulates and revitalizes the skin**.

Beeswax: enhances the balm's protective film-forming properties. With its soft, delicately scented texture, beeswax **nourishes and leaves the skin supple and velvety**.

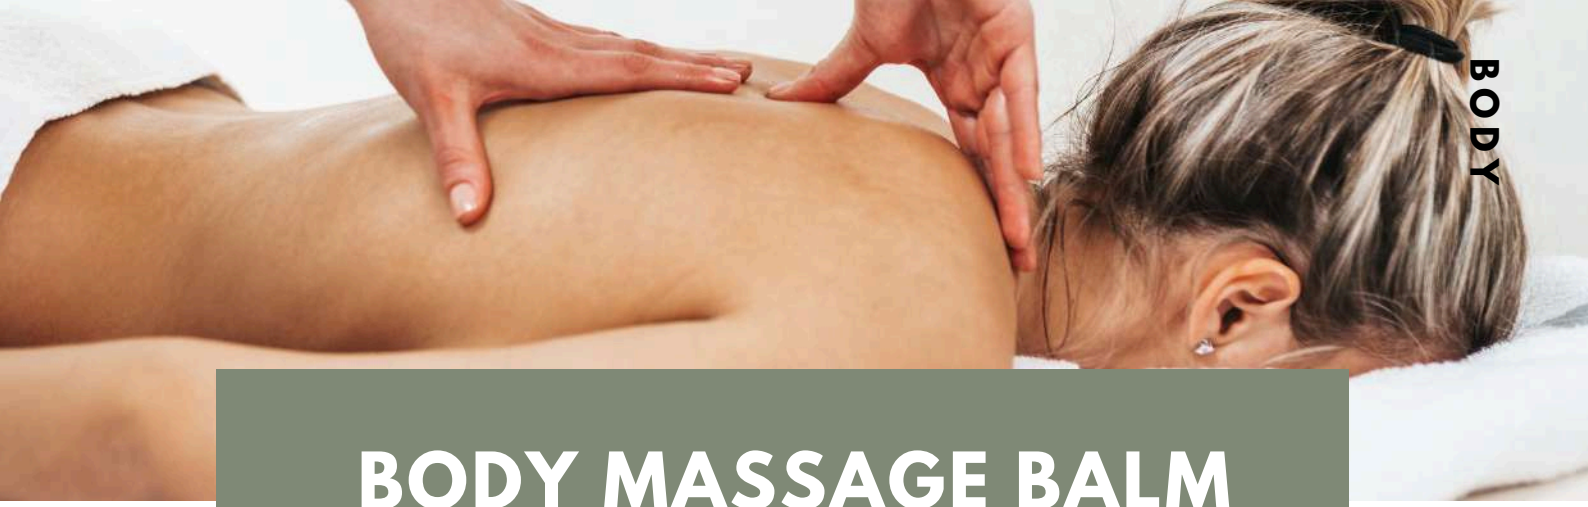

Essential oil complex: a refined blend of rosemary, lavandin, marjoram, and lemon essential oils creates an ideal aromatherapy synergy. Known for their relaxing and balancing benefits, these oils promote **comfort**, **relaxation, and a sense of harmony**.

Beauty Ritual

Apply the balm to dry skin for a traditional massage or use it under a thermal rain shower. The amount applied can be adjusted according to the treatment area.

Professional use: this product is intended exclusively for professional massage therapists.
Precautions for use: Not recommended for pregnant or breastfeeding women.

PACKAGING: POT 500 ML

BODY MASSAGE BALM

Relaxes | Soothes | Nourishes the skin

A tailored function...

This vegetal body massage balm, enriched with nourishing and moisturizing actives, offers a true moment of relaxation.. It relaxes the entire body thanks to a texture that allows for a long-lasting and effective massage.

Active ingredients

Sunflower oil: naturally rich in linoleic acid and vitamin E, this oil is known for its **nourishing and emollient** properties, bringing radiance and comfort to the skin.

Rosehip oil: cold-pressed from rosehip seeds, this oil is rich in essential fatty acids. It is quickly absorbed, leaving the skin **soft, smooth, and revitalized.**

Castor oil: obtained by cold pressing of castor seeds, this oil is concentrated in ricinoleic acid, known for its **soothing and protective** properties, particularly for delicate skin.

Shea butter: extracted from shea nuts, this butter is rich in fatty acids and vitamins. It deeply **nourishes, softens, and protects the skin from dehydration**.

Fucus vesiculosus oil extract: this active ingredient is composed of polyunsaturated fatty acids that form a protective barrier and help prevent water loss. Rich in minerals and trace elements, it **stimulates and revitalizes the skin.**

Beauty Ritual

Apply the balm locally or to the entire body and massage as desired. The amount used may vary depending on the areas treated: from 5 ml for a localized massage to 20 ml for a full-body massage.
Professional use: this product is intended exclusively for professional massage therapists. After application, be sure to wash your hands.
Precautions for use: Not recommended for pregnant or breastfeeding women. For adult use only.

INTENSE MASSAGE OIL
SEAWEED & BOTANICALS

Well-being | Relaxation | Nourishes the skin

A tailored function...

This massage oil offers a true moment of relaxation and well-being throughout the treatment. Enriched with a powerful blend of algae and plant extracts, it perfectly balances the benefits of land and sea to deliver a deeply relaxing experience. Naturally fragranced, it leaves the skin nourished, soft, and radiant.

Active ingredients

Apricot kernel oil: extracted from apricot seeds, this oil is known for its **nourishing and softening** properties, ensuring an optimal glide and lasting comfort throughout the massage.

Sweet almond oil: obtained from almonds, this deeply **nourishing oil softens and smooths the skin** while enhancing glide during the treatment.

Laminaria oil extract: a natural extract rich in minerals and trace elements, known for its **revitalizing and stimulating effects on the skin**.

Essential oil complex: a blend of eight botanical essential oils—chamomile, pine, juniper, thyme, mint, lavandin, coriander, and caraway—selected for their **relaxing, toning, and rebalancing** properties. This unique synergy provides **a soothing sensation of well-being and comfort** to the entire body.

Beauty Ritual

Apply the balm locally or to the entire body and massage as desired. The amount used may vary depending on the areas treated: from 5 ml for a localized massage to 20 ml for a full-body massage.

INDIAN SERENITY MASSAGE OIL

Harmonizes energies | Soothes nervous & muscular tension | Emotional renewal

Our two massage rituals will recreate the cycle of the tides to harmonize your energies and bring about emotional renewal throughout your entire body.

A tailored function...

This massage oil provides a unique moment of deep well-being thanks to its blend of nourishing oils and active ingredients, combined with gentle, rocking massage movements. It merges the wisdom of ancient Ayurvedic techniques with the benefits of modern cosmetics. Five rare, nutrient-rich oils have been carefully selected to ensure a long, enveloping massage. In harmony with our recommended massage techniques, this formula helps channel the body's vital water to soothe nervous and muscular tension.

Active ingredients

Organic sesame oil and hazelnut oil: selected for their perfectly balanced glide and complementary properties. This synergy provides a fine, protective film on the skin while ensuring **smooth, lasting comfort.**

Castor oil: traditionally used in Ayurveda for its calming and soothing properties, helping to ease tension and restore balance.

White tea oil extract and laminar oil extract: deliver **antioxidant and replenishing benefits**, revitalizing the skin and restoring its natural glow.

Turmeric extract: stimulates energy flow and helps release accumulated tension for **total relaxation**.

Damask rose hydrosol: in Ayurveda, this aromatic floral water is known to harmonize **energies and balance emotions**, promoting a sense of inner peace.

Captivating fragrance: Top notes – Floral, honeyed, and orange blossom / Heart notes – White flowers and neroli/ Base notes – White musk and floral musk

Beauty Ritual

This treatment is performed from head to toe using slow, rocking motions. Gentle pressure points are applied to the head (without oil), followed by circular, rhythmic movements across the body in a soothing oscillation.
Recommended duration: 45–50 minutes | Recommended quantity: 30 mL

Precautions: Do not apply to the face or irritated skin. If the product comes into contact with the eyes, rinse with clean water.

ENERGY SOURCE MASSAGE OIL

Harmonizes energies | Stimulating ingredients | Regenerates & energizes

Our two massage rituals will recreate the cycle of the tides to harmonize your energies and bring about emotional renewal throughout your entire body.

A tailored function...

This massage oil provides a unique moment dedicated to rebalancing the body's energies. It promotes the elimination of toxins while restoring positive energy and vitality. Combining the wisdom of ancient massage techniques (Ayurveda) with the benefits of modern cosmetics, this oil helps harness the body's vital water to create a true sense of renewal. The result is an immediate and lasting feeling of well-being and revitalization.

Active ingredients

Grape seed oil and apricot kernel oil: rich in essential fatty acids and vitamins that **nourish and protect the skin** while ensuring an optimal glide.

Organic flaxseed oil: a natural source of omega-3 and omega-6 fatty acids that **restore vitality and overall tone** to the body.

Laminaria oil extract and cucumber extract: provide **regenerating and stimulating minerals** and trace elements.

Ivy extract: promotes energy flow throughout the body for a **detoxifying and revitalizing effect**.

Pomegranate extract: a powerful natural booster recognized for its **antioxidant and energizing properties**.

Arnica montana extract: a traditional Ayurvedic floral extract known for its **soothing and purifying benefits**, helping to release negative energies.

Energizing fragrance: Top notes – Fresh green plant accords / Heart notes – Rose and white lily / Base notes – Woody and amber tones

Beauty Ritual

This treatment is performed from head to toe using slow, rocking motions. Gentle pressure points are applied to the head (without oil), followed by circular, rhythmic movements across the body in a soothing oscillation.
Recommended duration: 45–50 minutes | Recommended quantity: 30 mL

HYDRA-NOURISHING WAX

Moisturizing cocoon | Nourishes the skin | Skin radiance

A tailored function...

This smooth, ready-to-use wax envelops the entire body in a cocoon of moisturizing softness. Delicately scented with citrus notes, its film-forming, active texture deeply nourishes the skin from the very first application. The skin regains its suppleness and radiance.

Active ingredients

Shea butter: exceptionally rich in fatty acids, shea butter deeply **nourishes and protects the skin while restoring elasticity**.

Laminaria seaweed extract: this active ingredient, derived from the brown seaweed Laminaria digitata, is a mineral concentrate abundant in trace elements that aids in **stimulating and revitalizing the skin**.

Beeswax: naturally film-forming, it enhances the **nourishing** power of the treatment and **leaves the skin soft and comfortable**.

Honey: rich in minerals and B vitamins, honey **revitalizes and restores the skin's natural glow**.

Beauty Ritual

Apply a thin layer (approximately 100 g) over the entire body. Cover with a biodegradable film and leave on for 15 to 20 minutes, then rinse off in the shower.
Precautions for use: do not use with wet hands or spatulas. Close the container tightly after each use.

PACKAGING: 1000ML BUCKET

INTENSE SERENITY WAX

Relaxing cocoon | Nourishes the skin | Radiance

A tailored function...

This Intense Serenity Wax, ready to use, offers a true moment of deep relaxation and well-being. Its rich, creamy texture envelops the entire body in a cocoon of calm and serenity. The film-forming texture leaves the skin supple, soft, and comforted.

Active ingredients

Shea butter: exceptionally rich in fatty acids, shea butter **nourishes and protects the skin,** restoring elasticity and comfort.

Beeswax: naturally film-forming, it **enhances the skin's softness while reinforcing the nourishing efficacy** of the treatment.

Vital Water® from blue algae: this unique water, derived from the nutritional medium of Spirulina, is enriched with proteins, sugars, vitamins, and trace elements, providing a **revitalizing and energizing effect on the skin**.

Linden flower extract: known for its **relaxing and soothing properties**, linden helps **relieve stress and promotes a feeling of calm and restfulness**.

St. John's wort extract: recognized for its calming and comforting properties, it promotes a **profound sense of serenity and well-being**.

Beauty Ritual

Apply a thin layer (approximately 100 g) over the entire body. Cover with a biodegradable film and leave on for 15 to 20 minutes, then rinse off in the shower.
Precautions for use: do not use with wet hands or spatulas. Close the container tightly after each use.

VELVET BODY MASK
RED SEAWEED & HIBISCUS

Well-being | Relaxation | Rebalances

A tailored function...

This velvet-touch body mask provides an instant sensation of well-being. It envelops the body in a soft, harmonizing cocoon, restoring balance between body and mind in perfect harmony. Its ready-to-use formula is easy to apply and does not always require rinsing after treatment.

Active ingredients

Seawater: rich in minerals, ensures ideal osmosis with the body through the principle of isotonicity, while depositing just the right amount of beneficial trace elements on the skin.

Hibiscus flower extract: a symbol of beauty, hibiscus is rich in polyphenols with **antioxidant properties**, helping **protect the skin** against free radical damage while **promoting radiance**.

Red seaweed extract (Coralline): this calcified seaweed is a true "marine plant coral." It contains concentrated biocalcium, which **stimulates collagen synthesis and firms the skin.**

Beauty Ritual

For optimal comfort, warm the mask slightly before application. Apply 150 to 200 mL evenly over the entire body, then cover with a biodegradable film. Leave on for 15 to 20 minutes and rinse off in the shower.

ESSENTIAL DETOX WRAP

Detoxifying cocoon | Purifying | Regenerate

A tailored function...

Ready to use, this full-body wrap enriched with unique plant-based actives offers a true moment of active purity. This velvety wax envelops the entire body in a detoxifying cocoon.

Active ingredients

Wakamé extract: **rich in minerals and vitamins**, this brown seaweed has been used for centuries in Asia for its purifying and detoxifying properties. This active ingredient is renowned for its ability to protect the dermis and eliminate impurities and toxins.

Goji extract: nicknamed the "superfruit" for its unique richness in vitamins B, C, E and amino acids, it is also a **powerful energy rebalancer**. Thanks to its stimulating and rebalancing action, it regenerates the skin, restoring its natural radiance.

Green tea extract: known for its exceptional concentration of **powerful antioxidants**, it enhances the purifying efficacy of this treatment.

Beauty Ritual

Apply this treatment (approximately 100g) in a thin layer over the entire body. Cover with a wrap film. Ensure that sufficient heat is maintained over the entire body. After 20 to 30 minutes, rinse off in the shower.

Precautions for use: do not use with wet hands or spatulas. Close the container tightly after each use.
Not recommended for pregnant or breastfeeding women. Apply to healthy skin only.

PACKAGING: 1000ML BUCKET

FUCUS SAUNA EFFECT SEAWEED FOR BODY WRAP

Silhouette | Active texture | Elimination

A tailored function...

With its "sauna effect," this ready-to-use body wrap envelops the entire body in a unique occlusive texture that promotes perspiration and detoxification. Its smooth, film-forming consistency rinses off easily, leaving the skin soft and refreshed. Rich in fucus seaweed, this treatment is ideal as part of a slimming or contouring program.

Active ingredients

Fucus vesiculosus seaweed: exceptionally rich in trace elements, this seaweed is well-known for its lipolytic properties that help **promote the elimination of excess fluids and toxins**.

Mentholated eucalyptus and peppermint essential oil: this combination, with its soft and refreshing aroma, is recognized for its **decongesting and soothing effects**.

Rosemary essential oil: renowned for its **purifying and draining properties**, it helps stimulate circulation and tone the body.

Lavandin essential oil: valued for its **calming and muscle-relaxing benefits**, its delicate floral scent enhances the overall sense of relaxation and well-being.

Beauty Ritual

Apply a thin, even layer (approximately 150 g) over the entire body. Wrap the body in a body film and maintain a comfortably warm temperature to encourage perspiration. Leave on for 20–30 minutes, then rinse off in the shower.

Precautions for use: do not use with wet hands or spatulas. Close the container tightly after each use.
Not recommended for pregnant or breastfeeding women. For adult use only.

REF: 2M0029B - BBD: 36 MONTHS / PERIOD AFTER OPENING: 3 MONTHS
PACKAGING: 1000ML BUCKET

CRYO-ACTIVE LEG CARE

Well-being | Intense freshness | Lightness

A tailored function...

This ready-to-use targeted treatment provides immediate relief and comfort for tired, heavy legs through a specific cryo-active wrap. Legs are instantly refreshed, toned, and light. The formula delivers proven effectiveness in alleviating the sensation of heaviness and fatigue.

Active ingredients

Brown algae extract: rich in mineral salts and trace elements, it **revitalizes and energizes the skin**. Its natural film-forming agents provide a smooth, comfortable texture during application.

Horse chestnut extract: renowned for its **stimulating and toning properties**, this extract helps restore a feeling of lightness and vitality to the legs.

Butcher's broom extract: known for its **invigorating and soothing benefits**, this botanical ingredient helps reduce leg discomfort and promotes overall well-being.

Refreshing agent (menthyl lactate): delivers an intense, **long-lasting cooling effect** while ensuring excellent skin tolerance throughout the treatment.

Beauty Ritual

Apply a thin, even layer to the legs. Wrap each leg with a biodegradable film sheet, elevate the legs, and allow the active ingredients to work for 20 minutes. Rinse off with lukewarm water or in the shower.

Precautions for use: Not recommended for pregnant or breastfeeding women. For adult use only.

REF: 2M0021B - BBD : 24 MONTHS / PERIOD AFTER OPENING: 3 MONTHS
PACKAGING: 2.7 KG BUCKET

LAMINARIA SEAWEED CREAM

Remineralizes | Comfort | Revitalizes

A tailored function...

Exceptionally rich in minerals and trace elements, this body wrap immerses the entire body in a regenerating and revitalizing cocoon. Formulated with preservatives approved by the Ecocert Cosmos Standard guidelines (European organic certification), this treatment allows you to safely enjoy the full benefits of marine active ingredients.

Active ingredients

Brown seaweed powder (Laminaria digitata): a unique mineral concentrate packed with trace elements that help **stimulate and energize the body**, promoting **vitality and balance**.

Lithothamnium seaweed powder: derived from the red algae Lithothamnium calcareum, exceptionally rich in marine calcium, it naturally **enhances the mineral effectiveness** of this treatment.

Beauty Ritual

Warm the product gently using a microwave or bain-marie, without risk of altering its mineral and trace element content. Always check the temperature before application. Apply evenly over the entire body with a spatula, brush, or gloves, then cover with a body wrap film. Leave on for 15 to 20 minutes, then rinse off in the shower.

Precautions for use: apply only to healthy skin.

REF: 2M0013D - BBD: 12 MONTHS / PERIOD AFTER OPENING: 3 MONTHS
PACKAGING: 15 KG BUCKET

FUCUS SEAWEED CREAM

Silhouette | Remineralizing | Detoxifying

A tailored function...

This body wrap, concentrated in minerals and trace elements, plunges the entire body into a draining and detoxifying cocoon. Formulated with preservatives approved by the Ecocert Cosmos Standard guidelines (European organic certification), this treatment allows you to safely enjoy the benefits of marine actives. Its rich concentration of fucus seaweed makes this wrap an ideal treatment as part of a slimming program.

Active ingredients

Micronized fucus seaweed: this seaweed possesses recognized **lipolytic properties**, naturally making this treatment an ideal addition to a tailored slimming care program.

Oyster shell powder: oyster shells, once sorted and dried, are ground to obtain this 100% natural fine powder, rich in **calcium and magnesium**.

Natural salt: rich in minerals and trace elements, these salts gently **revitalize the skin**.

White clay: white clay, also known as kaolin, is naturally rich in minerals. It provides **comfort to the skin** during the treatment.

Vegetable glycerin: thanks to its **emollient properties**, glycerin brings **softness and protection to the skin**.

Beauty Ritual

Warm the product gently using a microwave or bain-marie, without risk of altering its mineral and trace element content. Always check the temperature before application. Apply evenly over the entire body with a spatula, brush, or gloves, then cover with a body wrap film. Leave on for 15 to 20 minutes, then rinse off in the shower.

Precautions for use: apply only to healthy skin.

REF: 2M0018C - BBD: 12 MONTHS / PERIOD AFTER OPENING: 3 MONTHS
PACKAGING: 10KG BUCKET

BLUE ALGAE CREAM
WITH SPIRULINA

Firming action | Energy booster | Skin radiance

A tailored function...

This ready-to-use body wrap offers a complete skin-beautifying treatment. Brown and red seaweeds work together to energize all essential skin functions, while blue algae restore suppleness and firmness. Ideal as part of a firming or toning program, this wrap leaves the skin revitalized, soft, and radiant.

Active ingredients

Blue algae (Spirulina): this microalga is exceptionally rich in proteins that support skin elasticity. Its natural concentration of vitamins (E, B12), iron, and zinc enhances the **skin's regeneration process** and promotes vitality.

Red algae (Lithothamnium calcareum): rich in calcium, magnesium, and iron, this red algae acts as **a natural energy booster** for the skin, helping to remineralize and strengthen it.

Brown algae (Laminaria & Wakame): a duo highly concentrated in marine minerals and trace elements, **stimulating and revitalizing all skin functions**. Wakame also provides a detoxifying effect, helping to eliminate impurities.

White clay: a gentle, natural r**ebalancer that soothes and comforts the skin** while enhancing overall well-being.

Beauty Ritual

Warm the product gently using a microwave or bain-marie. Always check the temperature before application. Apply evenly over the entire body, then cover with a body wrap film.

Leave on for 15 to 20 minutes, then rinse off in the shower.

REF : 2M0031C - BBD: 12 MONTHS / PERIOD AFTER OPENING: 3 MONTHS
PACKAGING: 10KG BUCKET

MARINE MUD THALAFANGO

Remineralizing | Joint care | Comfort

A tailored function...

Rediscover the benefits of a mineral-rich body paste, infused with calcium and magnesium — essential elements for joint and muscular well-being. Its ready-to-use creamy texture offers excellent heat-retention properties, providing an enveloping sense of comfort during application.

This unique formula is designed to rinse off easily, avoiding any clogging of drainage systems.
Formulated with preservatives compliant with the COSMOS Standard by Ecocert (the new European organic certification), this treatment allows you to enjoy the full benefits of marine active ingredients in complete safety.

Active ingredients

Lithothamnium Calcareum Powder (Red Algae): Exceptionally rich in marine calcium, this red algae reinforces the **mineral efficiency** of the treatment and enhances its **remineralising** properties.

Poudre d'algues Fucus : Packed with trace elements, vitamin C, and minerals, this seaweed promotes **skin vitality and balance**.

Poudre d'algues brunes : A unique mineral concentrate brimming with trace elements, it helps **stimulate and revitalise** the care areas of the body.

Limon marin : Rich in trace elements and minerals, this marine sediment acts like a natural clay, providing **deep comfort and a pleasant texture**.

Beauty Ritual

Warm the product gently using a microwave or bain-marie, without risk of altering its mineral and trace element content. Always check the temperature before application. Apply by hand or with a spatula. Leave on for 20 minutes, then rinse off in the shower.
Precautions for use: apply only to healthy skin.

REF: 2M0012C - BBD : 12 MONTHS / PERIOD AFTER OPENING: 3 MONTHS
PACKAGING: 15KG BUCKET

SEAWEED & CLAY BODY WRAP

Ready to use | Joint and muscular wellness | Remineralizing

A tailored function...

This high-mineral body wrap combines the rebalancing, energizing benefits of clay with the skin-loving minerals and trace elements of laminaria seaweed. The ready-to-use texture offers excellent heat retention for comforting, targeted care.

Active ingredients

Brown seaweed: this active ingredient, extracted from the brown seaweed Laminaria digitata and enriched with trace elements, provides the skin with the **stimulating & energizing** elements involved in its proper functioning.

Green clay: green clay has the unique property of being composed of three types of clay: montmorillonite, illite and kaolinite. Naturally rich in minerals and trace elements, green clay is suitable for all skin types. This clay is a **natural general rebalancer**.

Beauty Ritual

Use as a localized wrap, applied like a poultice to targeted areas. Warm gently (microwave or bain-marie) without degrading minerals or trace elements, and apply the seaweed cream lukewarm. Spread a generous layer with a glove or spatula, then cover with a body wrap film. Leave on for 15–20 minutes, then rinse off in the shower.

Precautions for use: apply only to healthy, intact skin.

REF: 2M0026C - BBD: 12 MONTHS / PERIOD AFTER OPENING: 3 MONTHS
PACKAGING : 25 KG BUCKET

OLIGO-ACTIVE SELF-HEATING CLAY

Gentle warmth | Remineralizing | Deep relaxation

A tailored function...

This formula is specially designed to relax areas of muscular tension in the back, providing a comforting cocoon of warmth throughout the treatment. Its crackling mousse texture delivers a deep sense of relaxation and acts as a true energetic rebalancer.

Active ingredients

Heating and thermostatic base: this heating base is equipped with a mineral complex that ensures controlled heat for 25 minutes through an **oxidation-reduction process.**

Brown seaweed: this active ingredient, extracted from the brown seaweed Laminaria digitata and enriched with trace elements, provides the skin with the **stimulating & energizing** elements involved in its proper functioning.

Green clay: green clay has the unique property of being composed of three types of clay: montmorillonite, illite and kaolinite. Naturally rich in minerals and trace elements, green clay is suitable for all skin types. This clay is a **natural general rebalancer**.

Beauty Ritual

Open a 250 g sachet of powder. Mix with 250 mL of water (non-thermal) at a maximum temperature of 25°C and stir until a smooth, homogeneous texture is obtained. Protect the treatment table with a double layer of biodegradable film. Apply the preparation in a "T" shape over the back area, then wrap the entire body. Leave on for 20 minutes, then rinse with lukewarm water.

REF: W00020C - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 250 GR SACHET/ 20 KG BOX

THALASSALGO REMINERALIZING WRAP

LAMINAR POWDER TO BE REHYDRATED

Remineralizing | Well-being | Energy booster

A tailored function...

This body wrap, rich in minerals and trace elements, envelops the entire body in a regenerating and revitalizing cocoon. Its high concentration of active ingredients makes it particularly suitable for use in a fitness or re-energizing program. The soft, creamy texture ensures both comfort and efficacy throughout the treatment.

Active ingredients

Brown seaweed powder (Laminaria digitata): a micronized brown seaweed powder, uniquely rich in minerals and trace elements, known to **stimulate and energize** the body while restoring vitality and balance.

Marine calcium: derived from oyster shells, this 100% natural fine powder is exceptionally rich in calcium, helping to **strengthen and remineralize the skin**.

White clay: a recognized energetic rebalancer, this gentle clay **soothes and comforts the skin**, providing a pleasant, restorative sensation.

Natural sea salt: naturally rich in minerals and trace elements, these salts **revitalize the skin and promote an osmotic balance that enhances the benefits** of the treatment.

Beauty Ritual

For a full-body application, use approximately 800 g to 1 kg of prepared mixture. To rehydrate, mix 250 to 350 g of seaweed powder with 500 to 700 g of water until a smooth paste is obtained. The mixture can be gently warmed in a microwave or bain-marie. Always check the temperature before application. Apply the paste by hand or with a spatula, then wrap the body with film and cover with a thermal blanket. Leave on for 15 to 20 minutes, then rinse off in the shower.

REF: W00028A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 12 MONTHS.
PACKAGING: 15KG BOX

SEAWEED POULTICES

Comfort | Joint care | Remineralizes

A tailored function...

Poultices have been used for centuries to relieve joint discomfort. These seaweed-based poultices recreate this traditional wellness ritual while delivering the exceptional concentration of trace elements naturally present in brown seaweed.

Active ingredients

Fucus seaweed powder: exceptionally rich in trace elements, vitamin C, and minerals, fucus seaweed—used as the sole ingredient in this formula—provides 100% of its natural benefits for **remineralization, revitalization, and comfort**.

Beauty Ritual

Immerse the poultice in hot water (60°C) for 10 minutes. Allow excess water to drain over steam. Apply the warm poultice to the desired area and leave on for 15 to 20 minutes.

REF: MMT000034 -BBD: 36 MONTHS / PERIOD AFTER OPENING: 12 MONTHS

SKIN TREATMENTS

BODY CARE

seamer

MOISTURIZING VELVET CREAM

Melting | Velvety | Comfort

A tailored function...

This treatment promises a rich texture that melts into the skin for intense, long-lasting hydration*, providing the comfort it deserves. As it passes over the skin, it deposits its carefully selected active ingredients: nourishing shea butter and bees wax, moisturizing and an active ingredient derived from polysaccharides (a combination of sugars) with moisturizing and soothing properties. At the end of application, it leaves a veil with an incomparable velvety finish. Perfectly pampered, the skin feels comfortable and stays hydrated over time*. This formula is also ideal for extremities (hands and feet).

*** Effectiveness test carried out on 10 volunteers at T4h - T8h - T24h.**

Active ingredients

Spirulina extract: Spirulina is a micro-algae of the Cyanophyceae family, which owes its blue-green color to a pigment (phycocyanin). It grows naturally in the waters of alkaline lakes in tropical regions. It is naturally rich in proteins, vitamins and essential fatty acids. These nutrients give it exceptional **revitalizing and nourishing properties**.

Shea butter: Extracted from the fruits of the shea tree, a tree native to West Africa, shea butter is extremely rich in fatty acids and vitamins. It **nourishes, protects and provides softness and suppleness to the skin**.

Polysaccharide (assembly of sugars): this active ingredient has the ability to capture and retain water, which gives it short and medium-term moisturizing properties (in vivo test). It also immediately **soothes the skin by restoring feelings of comfort and well-being** (in vitro and in vivo tests). Thanks to its film-forming effect, it offers a silky feel to the skin.

Bees wax: Bees wax is appreciated for its ability to **reinforce the skin's natural protective barrier** thanks to its film-forming power. It also offers a silky touch.

Beauty Ritual

Apply to the entire body using circular movements.

REF: 2C0107A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 12 MONTHS
PACKAGING: 300 ml TUBE

CELLU-EXPERT GEL

Silhouette | **Tone** | **Firmness**

A tailored function...

This fresh, ultra-fast-absorbing gel cream is formulated with ingredients selected for their slimming properties. Its powerful blend of active ingredients helps improve skin firmness and visibly reduce the appearance of cellulite. Skin feels firmer, smoother, and more toned.

Active ingredients

Coralline-derived active ingredient: coralline is a naturally calcified red algae whose highly bioavailable calcium works in synergy with the skin's natural processes. This active ingredient helps **limit fat storage**, stimulate collagen synthesis, **improve skin firmness**, and visibly reduce the appearance of cellulite (in vivo test). To help preserve natural coralline resources, this ingredient is sustainably cultivated in a photobioreactor.

Caffeine: the ultimate slimming active ingredient. In addition to its **stimulating and energizing** properties, caffeine is known to improve the appearance of the skin and enhance the contours of the body.

Guarana extract: a true concentrate of natural active compounds, guarana is renowned for its many beneficial properties. Rich in theobromine, vitamins, trace elements, and especially caffeine, it provides **stimulating and toning** benefits, making it an ideal ingredient for body contouring and slimming treatments.

Vitamin C: thanks to its toning and antioxidant properties, Vitamin C helps give the skin the **strength and vitality** it needs to defend itself against external aggressors.

Pomegranate extract: rich in polyphenols, Vitamin C, minerals, and trace elements, pomegranate offers **revitalizing and antioxidant** benefits that help enhance the skin's appearance.

Beauty ritual

Apply using circular movements, working upward from the thighs toward the hips. This formula allows you to get dressed quickly after application.

REF: 2G0086A – BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 300 ML TUBE

LIGHT LEGS GEL

Well-being | Long-lasting effect | Intense freshness

A tailored function...

This treatment provides immediate well-being. Once applied, it helps relieve and durably soothe the discomfort of heavy legs. Its non-sticky gel texture allows for a quick and pleasant wellness gesture.

Active ingredients

Seawater: Rich in minerals, seawater creates ideal osmosis with the body (isotonic principle) and leaves the skin with the right balance of **trace elements**.

Horse chestnut extract: Horse chestnut is known for its **stimulating** properties. This active ingredient helps the legs regain a feeling of **lightness**.

Butcher's broom extract: Butcher's broom, known for its toning properties, helps **reduce leg discomfort**.

Menthol: Obtained by crystallization of the essential oil of Mentha arvensis, menthol is used for its **refreshing and relaxing effects.**

Brown algae extract: This active ingredient extracted from the brown algae Laminaria digitata is a mineral concentrate rich in trace elements, **providing a stimulating and energizing action.**

Rosemary essential oil: Rosemary (Rosmarinus officinalis) is a plant native to the Mediterranean basin. Its richness in flavonoids gives it **purifying and revitalizing properties.**

Beauty Ritual

Apply a small amount of gel to each leg using gentle massage movements from the ankles up toward the thighs.
Precautions for use: Do not use during pregnancy or breastfeeding. For adult use only.
Professional use: Wash hands after application.

REF: 2G0064B - BBD: 36 MONTHS / PERIOD AFTER OPENING: 12 MONTHS
PACKAGING: 300ML TUBE

COOLING LOTION

Well-being | Intense freshness | Lightness

A tailored function...

A true professional gesture, this cooling lotion provides immediate well-being. It helps reduce the sensation of heavy legs and restores tone and lightness. This treatment does not require rinsing.

Active ingredients

Brown algae extract: This active ingredient extracted from the brown algae Laminaria digitata is a mineral concentrate rich in trace elements, providing a **stimulating and energizing action**.

Seawater: Rich in minerals, seawater creates ideal osmosis with the body (isotonic principle) and leaves the skin with the right balance of **trace elements**.

Horse chestnut extract: Horse chestnut is known for its **stimulating properties**. This active ingredient helps the legs regain a feeling of lightness.

Butcher's broom extract: Butcher's broom, known for its toning properties, helps **reduce leg discomfort.**

Beauty Ritual

This lotion can be used alone or with a pressotherapy device. Precautions for use: do not use on pregnant or breastfeeding women. For adult use only.

REF: 2T0024A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 5 L JERRYCAN

HYDRA-SOFT MASK FOR HANDS & FEET

Innovative add-on treatment | Intense film-forming effect | Optimized protocol

A tailored function...

A new professional gesture designed to care for the delicate skin of hands and feet.
This application can be used as a complete extremity treatment or as an innovative and simultaneous add-on to other beauty treatments: facial, body, hair coloring, Head Spa, etc.
The high-performance serum, combined with gloves or booties, envelops the hands and feet in a cocoon of softness, comfort, and beauty.
In a single treatment, hands are left soft and supple, and feet are perfectly nourished.

Active ingredients

Aquaporin-boosting moisturizing active: This active ingredient is a complex of glycerin and plant-derived glyceryl glucoside. Resulting from the combination of glycerin and glucose, glyceryl glucoside naturally occurs in **microalgae**. When exposed to saline stress, these microalgae accumulate this molecule to protect themselves from dehydration.
This active ingredient provides **immediate and long-lasting hydration** (up to 24 hours, in vivo tests) by boosting the formation of aquaporins (in vitro tests), proteins that act as channels to transport water within the skin.

Vegetable glycerin:
Thanks to its emollient properties, glycerin **softens and protects** the skin by reinforcing the skin barrier function.

Beauty Ritual

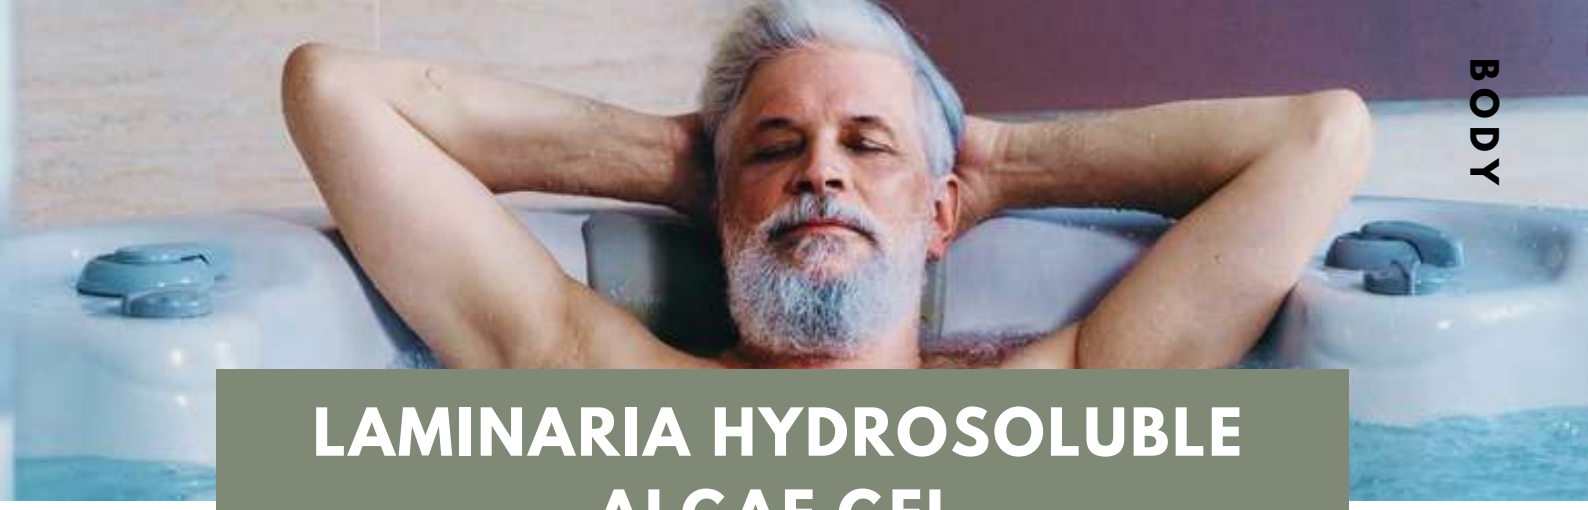

Pour the serum into the gloves or comfort booties (approx. 12ml to 15ml, 6 to 7 pump presses). Massage to evenly distribute the serum throughout the mask.
Put on the gloves or booties on clean, **dry hands or feet.**
Secure the tab by adjusting the glove or bootie around the wrist or ankle. Leave on for 20 minutes.
Remove and gently massage any excess serum into the skin.

SPA BATHS
BODY CARE

LAMINARIA HYDROSOLUBLE ALGAE GEL

Energizing | Remineralizing | Residue-free formula

A tailored function...

This algae gel, enriched with laminaria seaweed extracts, is a balneotherapy treatment that replenishes the entire body with essential minerals and trace elements. Its 100% hydrosoluble formula with immediate dispersion leaves no residue in the bath or drains.

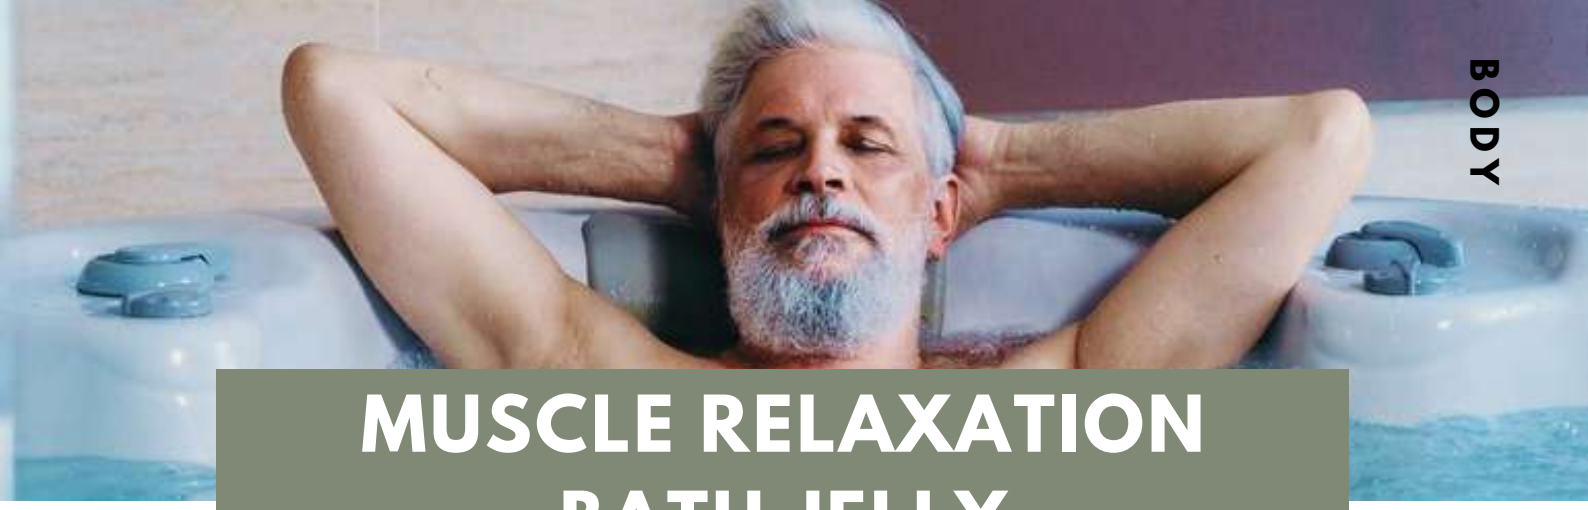

Active ingredients

Brown seaweed extract Laminaria digitata: highly concentrated, it constitutes a **powerful remineralizing active** due to its exceptional richness in minerals and trace elements (potassium, magnesium, calcium, phosphorus, iron, zinc, manganese...). This extract is derived from a biotechnological process that **guarantees mineral availability with no dry matter residue**.

Beauty Ritual

Pour one dose of jelly (50 mL) into bath water heated between 37°C and 38°C.
Relax in the bath for about 15 minutes, then rinse the skin.

REF: 2G0061A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 5 L JERRYCAN

MUSCLE RELAXATION BATH JELLY

Muscle relaxation | Synergy of thermal water & plant actives | Residue-free formula

A tailored function...

Perfect after physical activity, this bath jelly is specifically formulated to promote muscle relaxation. Combined with thermal water, its concentrated blend of plants and botanical actives provides a regenerating effect and supports recovery. This "fresh" bath treatment offers an ultimate moment of relaxation thanks to its 100% water-soluble formula that disperses instantly in warm water without leaving any residue in the bath or drains.

Active ingredients

Arnica extract: selected for its soothing and relaxing properties, this plant is rich in flavonoids and lactones, traditionally recognized for helping to **release muscular tension and ease discomfort**.

Horse chestnut and butcher's broom extracts: this synergistic duo, known for their **draining and toning** properties, helps **stimulate circulation and supports post-exercise recovery**.

Pomegranate extract: known for its revitalizing and stimulating effects, pomegranate is rich in vitamin C and natural polyphenols, offering **antioxidant protection and promoting skin vitality**.

Menthyl lactate: a menthol derivative that provides a cooling "hot/cold" sensation in the bath, contributing to **muscle recovery and an immediate feeling of well-being**.

Beauty Ritual

Pour one dose of jelly (60 mL or two pump strokes) into bath water heated between 36°C and 37°C.
Relax in the bath for about 15 minutes to allow the active ingredients to take effect.

REF : 4B0045A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 5 L JERRYCAN WITH PUMP, AVAILABLE ON ORDER (REF. EMT000387)

JOINT COMFORT BATH JELLY

Joint comfort | Synergy of thermal water & plant actives | Residue-free formula

A tailored function...

This unique formula combines a cocktail of botanical actives designed to enhance the beneficial effects of thermal water and improve joint comfort. Naturally fragranced and 100% water-soluble, this regenerating treatment disperses instantly in warm water, leaving no residue in the bath or drains.

Active ingredients

Harpagophytum extract: selected for its exceptional content of harpagosides, natural compounds known to help **relieve joint discomfort and promote flexibility**.

Chondroitin sulfate: recognized for supporting joint function by promoting the formation of a natural "gel-like" substance that contributes to improve **mobility and comfort**.

Horsetail extract: rich in minerals, particularly silica, this plant helps **maintain joint flexibility and overall mobility**.

Calendula floral water: valued for its emollient and soothing properties, it **leaves the skin soft and delicately enveloped**.

Tea tree essential oil: this essential oil releases gentle, relaxing notes that enhance the overall **sense of well-being** throughout the bath.

Beauty Ritual

Pour one dose of jelly (60 mL or two pump strokes) into bath water heated between 37°C and 38°C.
Relax in the bath for about 15 minutes to enjoy its full benefits.

REF: 4B0046A- BBD: 36 MONTHS / PERIOD AFTER OPENING: 6 MONTHS
PACKAGING: 5 L JERRYCAN WITH PUMP, AVAILABLE ON ORDER (REF. EMT000387)

RELAXING GEL
RED ALGAE & HIBISCUS

Anti-stress | Muscle relaxation | Residue-free formula

A tailored function...

A sensory experience combined with the benefits of plant-based active ingredients! The soothing color of the water blends with a relaxing fragrance for an intense moment of relaxation. This 100% water-soluble formula disperses instantly, leaving no residue in the bath or drains.

Active ingredients

Red seaweed extract: a combination of two red seaweeds. Chondrus crispus provides a naturally protective function through its moisturizing sugars. Lithothamne is exceptionally concentrated in **calcium and magnesium**, essential mineral elements for **stress regulation**.

Hibiscus flower extract: a true symbol of beauty, hibiscus is rich in polyphenols with **antioxidant** properties and is known for **protecting and revitalizing the skin**.

Botanical complex: a blend of plants naturally rich in vitamin C, calcium, magnesium, and trace elements that promotes muscle relaxation. Its moisturizing sugars also provide a **protective and comforting effect**.

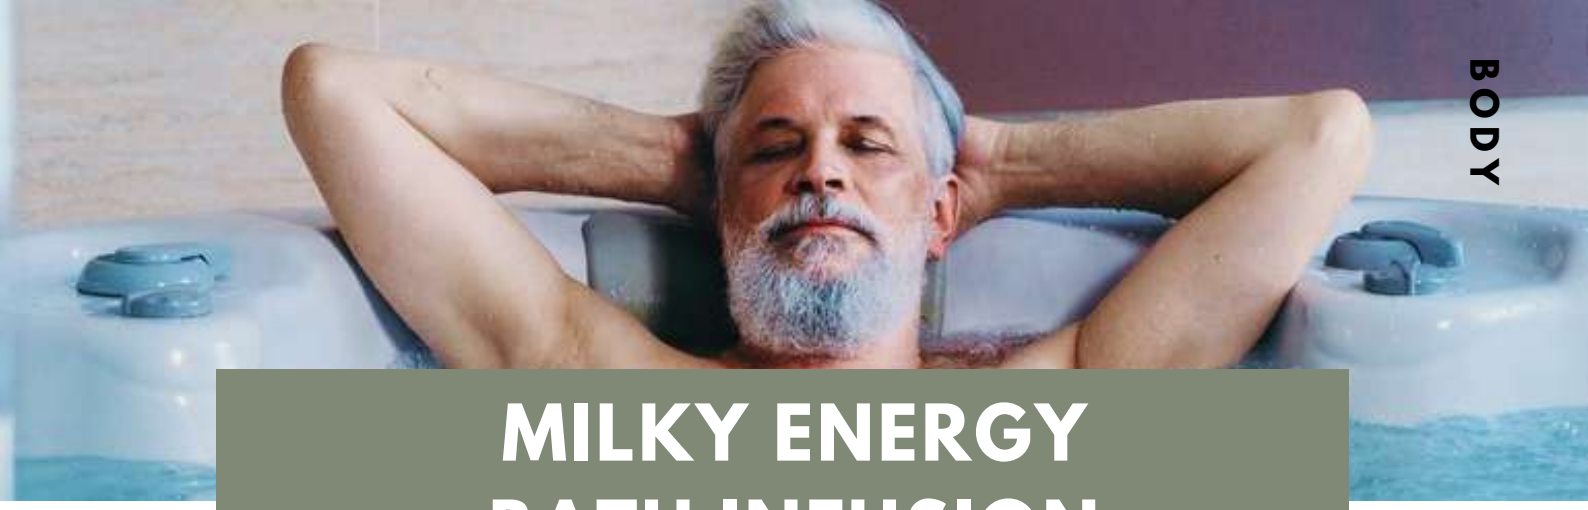

Relaxing fragrance: a delicate combination of flowers and fruits — peony, water lotus, apricot, and vanilla — releases soothing notes to create a deeply relaxing bath experience.

Beauty Ritual

Pour one dose of jelly (50 mL) into bath water heated between 37°C and 38°C.
Relax in the bath for about 15 minutes to enjoy its full benefits.

MILKY ENERGY BATH INFUSION

Rejuvenate | Vitality | Dream

A mineral and milky ceremony to help the body recharge with essential trace elements. Rediscover your vital energy.

A tailored function...

A unique experience that reinvents the art of bathing. A moment of total relaxation and release for both body and mind. Upon contact with water, this powder transforms into a delicately milky bath with a subtle, revitalizing fragrance.

Active ingredients

Milky agent: transforms the bathwater into a soft, velvety milk bath, enveloping the entire body in a moment of **comfort and pleasure**.

Protective sugar: derived from starch, dextrose acts as a humectant and prebiotic, enhancing **skin softness, smoothness, and hydration.**

Sea water: naturally rich in minerals, it ensures perfect osmotic balance with the body (isotonic principle), leaving the skin infused with **trace elements**. Obtained through atomization (drying process), the seawater retains its mineral concentration without leaving any residue in the bath.

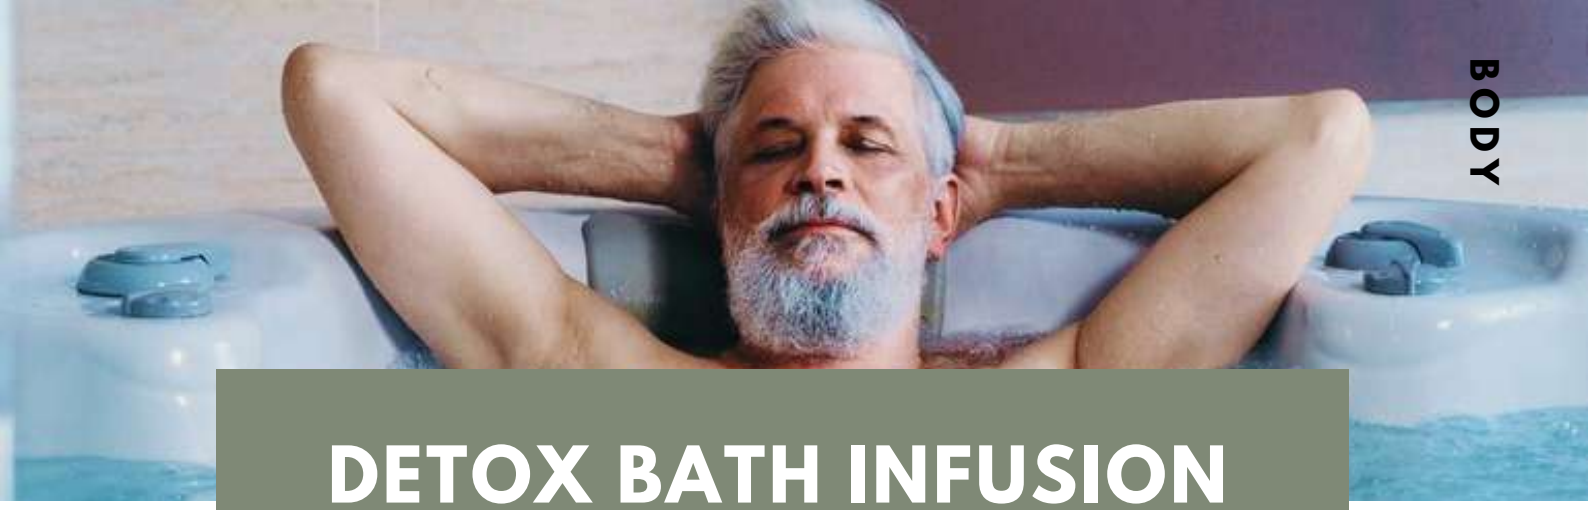

Floral and fruity fragrance: a refined blend of 17 aromatic notes, where the top notes delicately unfold before giving way to the heart and base accords that complete the sensory ritual.

Bath Ritual

Fill the bathtub with comfortably warm water and gently place the infusion bag into the bath. Allow to infuse for 15 to 20 minutes, then remove the bag. Gently immerse yourself in this restorative milk bath.

REF: 4P0035A - BBD: 36 MONTHS
PACKAGING: 20 G SACHET

DETOX BATH INFUSION

Purify | Regenerate | Dream

A botanical and fruity ceremony to help the body eliminate toxins.
Rediscover your natural sense of well-being.

A tailored function...

This bath infusion offers a moment of total purification. Upon contact with water, fruits and flowers gently release their active ingredients, creating a unique regenerating experience for body and mind.

Active ingredients

Cranberries: an effective **detoxifying** fruit known for promoting the elimination of toxins. Exceptionally rich in antioxidants and organic acids, it also provides an **intense energizing boost**.

Green tea: globally recognized for its **purifying and draining properties**, it helps the body eliminate toxins, strengthens natural defenses, and enhances overall vitality and energy.

Butterfly pea flower: an Ayurvedic bloom from Asia, prized for its stimulating effects on the nervous system, **improving concentration, cognitive function, and emotional balance**.

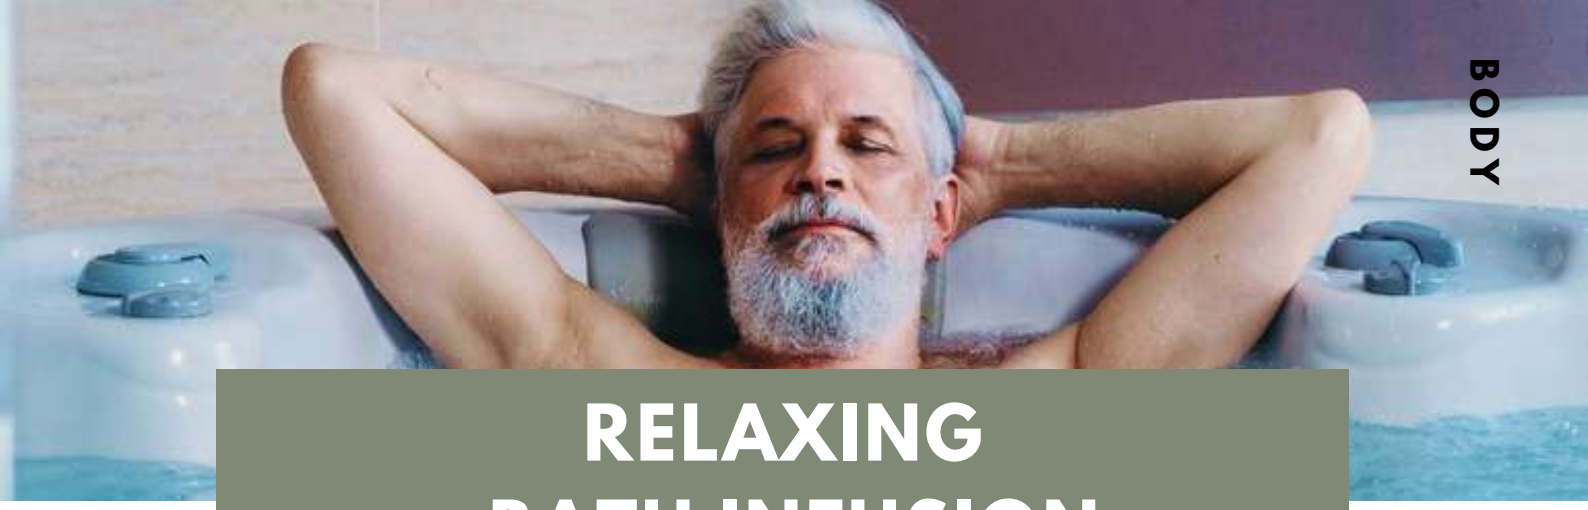

Floral and fruity fragrance: a refined blend of eight aromatic accords, where bright top notes gradually give way to heart and base notes that complete this delicate sensory ritual.

Bath Ritual

Fill the bathtub with comfortably warm water and gently place the infusion bag into the bath. Allow to infuse for 15 to 20 minutes, then remove the bag. Gently immerse yourself in this restorative bath.

REF: 4P0036A - BBD: 36 MONTHS
PACKAGING: 20 G SACHET

RELAXING BATH INFUSION

Deep relaxation | Anti-stress | Sleep aid

A floral ceremony to rediscover the art of bathing in a timeless bubble of serenity.

A tailored function...

This bath infusion offers a moment of absolute serenity, deeply relaxing both body and mind. Upon contact with warm water, the fruits and flowers release their active essences, gradually infusing the bath with soothing notes for an experience of profound relaxation.

Active ingredients

Centifolia rose petals: known as the "flower of happiness," this rose with 700 petals is traditionally celebrated for its naturally calming properties. It helps **harmonize energy flow and restore inner balance**. In water, its petals regain their natural freshness.

Calendula petals: widely used in herbal medicine for their **soothing and softening virtues**, calendula helps **relieve nervous tension and reduce stress-related discomfort.**

Rooibos leaves: rich in powerful antioxidants (polyphenols), rooibos helps combat oxidative stress and is traditionally used to **promote restful sleep and relaxation**.

Floral and fruity fragrance: a delicate blend of eight aromatic accords, where bright top notes gently evolve into heart and base notes, completing this enveloping sensory ritual.

Bath Ritual

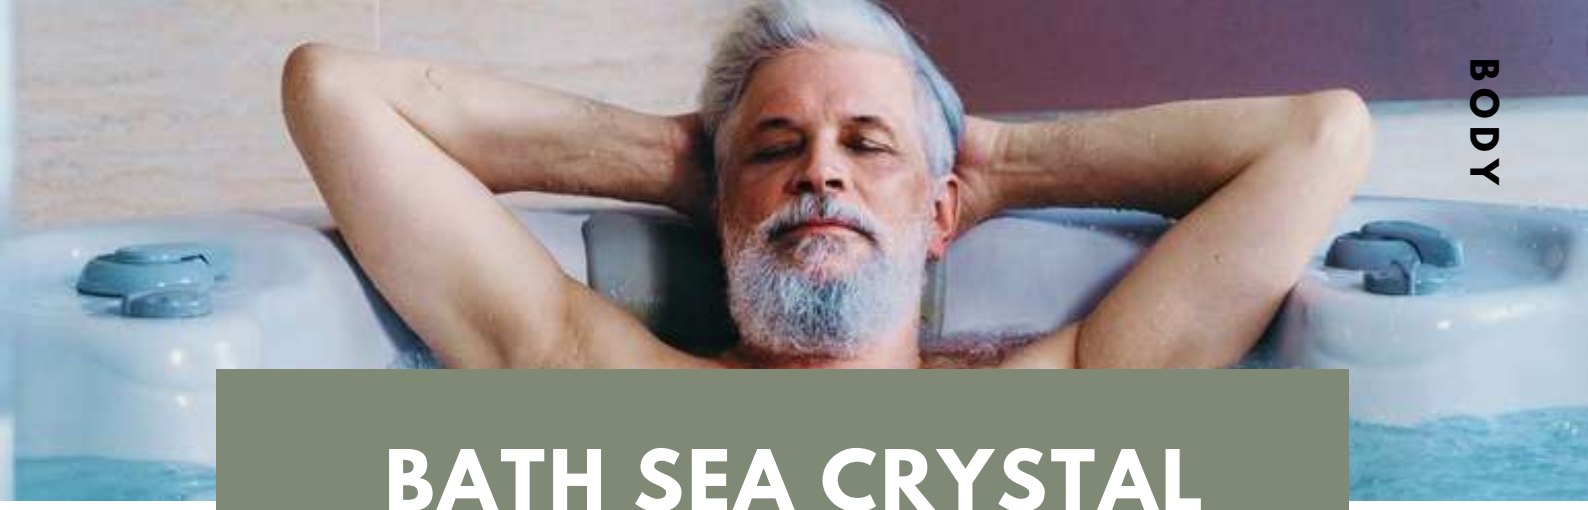

Fill the bathtub with comfortably warm water and gently place the infusion bag into the bath. Allow to infuse for 15 to 20 minutes, then remove the bag. Gently immerse yourself in this restorative bath.

BATH SEA CRYSTAL

Relaxing | Deep well-being | Revitalizing

A tailored function...

Upon contact with water, these marine crystals — enriched with sea salts and brown algae extracts — dissolve to deliver a true moment of well-being. Rich in minerals and trace elements, the sea salts revitalize the body while promoting deep relaxation.

Formulated to ensure a completely residue-free experience.

Active ingredients

Sea salts: carefully selected for their **high mineral content**, these salts help revitalize both body and mind while promoting a **beneficial osmotic balance**.

Brown seaweed extract (Laminaria digitata): highly concentrated and exceptionally rich in **minerals and trace elements** (potassium, magnesium, calcium, phosphorus, iron, zinc, manganese, etc.), this extract offers powerful **remineralizing and revitalizing** effects. Obtained through a biotechnological process, it guarantees optimal mineral bioavailability with no solid residue.

Beauty Ritual

Pour two handfuls (approximately 100 g) into bath water heated between 37°C and 38°C.
Relax in the bath for about 15 minutes.

LAGOON BATH
WITH SPIRULINA

Energy booster | Regenerate | Serenity

A tailored function...

A sensory experience combined with the benefits of marine active ingredients!

The lagoon blue color of the water combined with the delicate fragrant notes of this bath offers a true moment of relaxation and peace of mind. The entire body is in weightlessness to recharge and regain all its energy.

Active ingredients

Spirulina: thanks to its unique concentration of protein, iron, zinc, vitamin B12 and vitamin E, it provides a **regenerating function** for the entire body.

Combination of 3 marine salts: this combination of marine salts (Mediterranean, Dead Sea and Guérande) guarantees a beneficial osmosis effect. The calcium and magnesium content of Guérande and Dead Sea salts provides a **recharging effect that boosts the energy of the entire body**.

Fragrance: the floral and iodized notes invite **relaxation and well-being**.

Beauty Ritual

Add 2 handfuls (100g) to water at 37˚C - 38˚C and recharge in the bath for 15 minutes.

REF: 4S0047A - BBD: 36 MOIS / PERIOD AFTER OPENING : 12 MONTHS
PACKAGING: 3 KG BUCKET / 30 KG BOX

CLEANSING TREATMENTS
BODY CARE

INVIGORATING SHOWER GEL

Cleanses | Revitalizes | Tones

A tailored function...

Infused with brown seaweed extracts, this gel is the perfect ally for an invigorating shower. Upon contact with water, it transforms into a rich, creamy lather that gently cleanses and revitalizes the skin. This shower treatment leaves the skin delicately scented with a crisp, marine, and revitalizing note !

Active Ingredients

Brown seaweed extract: derived from Laminaria digitata, this active ingredient is concentrated in osmolytes: small organic molecules naturally present in the algae. This mineral synergy, rich in trace elements, **helps stimulate and energize** the skin.

Cleansing agent: this active ingredient **gently cleanses** the skin while preserving its hydrolipidic film.

Beauty Ritual

Apply the invigorating shower gel to damp skin. Lather generously, then rinse.

Precautions for use: in case of contact with eyes, rinse with water.

REF: 4G0039B - BBD: 36 MONTHS / PERIOD AFTER OPENING: 12 MONTHS
PACKAGING: JERRYCAN 5 L

GENTLE SHAMPOO

Fortifying active ingredients | Softness | Silky touch

A tailored function...

This shampoo gently cleanses all hair types. Its plant-based cleansing base envelops the hair in its rich, creamy lather. To care for the hair, marine and plant-based active ingredients are combined: protective sugars derived from red algae, soothing calendula floral water and fortifying wheat proteins. Hair regains its luminosity, vitality and lightness.

Active ingredients

Mastocarpus algae extract: Mastocarpus stellatus is a small red algae that fights against external aggressors (sun, wind, rain). Its secret weapon: the synthesis of anti-stress sugars that **protect the hair**.

Wheat proteins: beauty allies for the hair, they are known for their **protective properties** that help to revitalize the hair.

D-Panthenol: also known as provitamin B5, it has many benefits for the hair. A humectant and emollient, it has the property of coating the hair to protect and strengthen it, thus helping to **improve its appearance and beauty**.

Calendula extract: calendula is used in cosmetics for its **soothing and softening** properties.

Beauty Ritual

Apply to wet hair. Massage to lather, then rinse with water.

Precautions for use: in case of contact with eyes, rinse thoroughly with clean water.

REF : 3A0021A - BBD: 36 MONTHS / PERIOD AFTER OPENING: 12 MONTHS
PACKAGING: JERRYCAN 5 L

SERVICE PRODUCTS

EUCALYPTUS MILK FOR HAMMAM

Purify | Air freshness | Energizing

A tailored function...

Formulated with essential oils and a water-soluble milky base, this eucalyptus milk ensures the constant diffusion of eucalyptus and mint essential oils throughout the hammam. Ready to use, it is a pre-dosed blend containing 5% pure essential oils for an invigorating and refreshing experience.

Active ingredients

Eucalyptus essential oil: known for its soft, fresh scent, this oil helps clear the airways and promotes easy breathing. It creates an atmosphere of **intense freshness** within the hammam.

Mint essential oil: derived from Mentha arvensis, this essential oil delivers a crisp, energizing aroma. **Toning and purifying**, it refreshes the air and enhances the overall **feeling of vitality**.

Water-soluble milky base: this base ensures perfect and consistent dosing when the essential oils are diffused by the steam generator, guaranteeing a uniform aromatic experience.

Beauty Ritual

Depending on the type of steam generator:

- With automatic suction using an immersion tube: place the tube directly into the jerrycan.
- With a pre-mix tank system: dilute the milk with at least 50% water before use.

Recommendations: not suitable for children. Do not apply directly to the skin.

REF: 2T0023A - BBD: 36 MONTHS
PACKAGING: 5 L JERRYCAN WITH PUMP

BIODEGRADABLE BODY WRAP SHEET

Softness | Well-being | Comfort

A tailored function...

This biodegradable wrap film is ideal for enhancing treatment comfort. This film wraps around the body to accelerate and promote the action of products applied to the skin.

Product highlights:

- Plant-based origin: film certified "OK COMPOST HOME" bpiworld.org +1 .
- Enhanced biodegradability according to new standards: 100% biodegradable.
- Silky touch.
- Easy to use: pre-cut sheets.

Active ingredients

These films, made from natural non-GMO potato starch, 100% biodegradable and compostable materials, are the result of 100% French production and processing. They are certified according to the latest "OK COMPOST HOME" standard.

<u>According to the standard:</u>

- A biodegradable material is a material that, through the enzymatic action of microorganisms, undergoes a natural decomposition process leading to bio-assimilation.
- A compostable material is a material that undergoes degradation through a biological process under composting conditions, at a rate comparable to that of other known compostable materials, and generating no visible or recognizable toxic residue.

Application

Cut a sheet and wrap the entire body once the treatment has been applied.

Packaging (pre-cut sheets): Rolls of 150 double sheets and rolls of 300 single sheets.

The product can be stored for 12 months, in a dry place away from light and humidity, between 10 and 30°C.

900040A - Size 160x200 - Roll of 150 sheets.
900050A - Size 190x200 - Roll of 150 sheets.
900053A - Size 90x200 - Roll of 300 sheets.

BIODEGRADABLE BODY WRAP SHEET

GUARANTEED BIODEGRADABILITY

Definition	Potato starch-based material: biodegradable and home compostable, suitable for domestic composting.
Degradation time	Degradation within 12 weeks and bioassimilation within 12 weeks.
Degradation conditions	Bacteria.
Benefits	Standards – Texture – Home compostability.
Standards	Compliant with NF T51-800 and certified by the TÜV HOME COMPOST label.
Product recovery	Recoverable through industrial composting (NF EN 13432). Complete degradation within 6 months.

COMPLIANCE WITH ENVIRONMENTAL REGULATIONS

European Parliament and Council Directive 94/62/EC of 20 December 1994 on packaging and packaging waste, as amended by Directives 2004/12/EC and 2005/12/EC.

STANDARD	ASSESSMENT REQUIREMENT	DECLARATION
Prevention through source reduction	Ensure only the minimum amount of suitable material is used in the packaging system (EN 13428).	Yes
Hazardous substances	Ensure compliance with EN 13428 (CR 13695-2).	Yes
Heavy metals	Guaranteed levels below the maximum permitted values for components (CR 13695-1).	Yes
Organic recovery	Ensure compostability in accordance with all requirements of the standard for the packaging functional unit (EN 13432).	Yes

TERMINOLOGY

TERMINOLOGY
KEYWORDS

A

AMINO ACID
An organic substance, a fundamental component of proteins.

HYALURONIC ACID
Polysaccharide (see definition) naturally present in skin tissue. Acting like a true sponge, hyaluronic acid has the ability to attract and retain a large amount of water (up to 20 times its weight in water), providing a plumping effect. Also known for its tightening and smoothing action, it helps the skin regain its suppleness.

B

BIOCELLULOSE
Biocellulose is obtained through the natural enzymatic fermentation of coconut water. After approximately 15 days of fermentation, the biocellulose is harvested and used to produce masks in various formats. Its fibers are 1,000 times finer than a human hair, offering exceptional absorbency and bioavailability. This innovative galenic form is a treatment in itself, beyond the active ingredients it carries. The technology was originally developed in hospitals for the treatment of severe burns, due to its unique healing and skin-regenerating properties.

C

COLLAGEN
A large protein that makes up connective tissue, collagen is one of the most abundant proteins in the animal kingdom. It plays a key role in the structure of various tissues and organs such as the skin, tendons, and cartilage.

MARINE COMPLEXE ANTI-AGING
A 100% marine anti-aging active composed of two algae extracts:
Red algae (Mastocarpus stellatus) and blue microalgae (Spirulina).
The marine anti-aging complex helps redensify the dermal network, effectively fighting the formation of wrinkles. It also strengthens the skin's natural defenses against external aggressions, helping it preserve its youthful appearance.

PLUMPING COMPONENT
An active ingredient capable of retaining a large amount of water to provide deep hydration to the skin.

E

MARINE SPRING WATER
Drawn from the ocean depths, this seawater is rich in manganese and silicon — active ingredients known for enhancing skin firmness and hydration.

EMOLLIENT
Emollient action. Refers to a compound that helps soften and smooth the skin's outer layer (epidermis).

EMULSION
A binding system between two phases: a lipid phase and an aqueous phase, linked together by an emulsifier. Oil-in-water emulsion: the most common type, where oil droplets (the internal phase) are dispersed within the aqueous phase (the external phase). This type of emulsion is water-soluble.

F

FILM-FORMING
An ingredient that forms a protective film on the skin's surface, helping to:
- Maintain skin hydration,
- Preserve the skin's natural pH balance,
- Protect against external aggressions.

FLAVONOID
Flavonoids represent the largest category of polyphenols — molecules highly recognized for their antioxidant properties.

TERMINOLOGY
KEYWORDS

L

LACTESCENT Refers to an active ingredient with the ability to visually transform water into milk.

LIPOLYTIC Related to lipolysis: the breakdown (hydrolysis) of fats into fatty acids and alcohol.

O

OSMOLYTE D'ALGUE BRUNE Osmolytes are small organic molecules naturally present in algae. Synthesized by the algae when exposed to various stress conditions, osmolytes act as regulators of homeostasis — helping maintain the organism's biological balance in response to external environmental changes. They play a key role in retaining water within cells.

OSMOSIS A spontaneous and natural process in the body in which water moves from a diluted solution to a more concentrated one through a semi-permeable membrane. When both solutions reach the same concentration through osmotic exchange, equilibrium — or isotonicity — is achieved.

P

PEPTIDE A molecule composed of amino acids (an essential component of living organisms). Peptides combine with one another to form proteins.

POLYSACCHARIDE Polysaccharides are complex sugars made up of polymers that form film-forming structures, such as eye patches or professional gel masks (derived from brown algae).

PROTEIN A very large molecule formed by the association of amino acids linked together by specific bonds.

R

FREE RADICALS Atoms or molecules that are highly reactive due to their electronic structure and naturally present in our body.

S

SUBSTANCE P It is a neuropeptide and an inflammation messenger. When the skin is exposed to external stimuli (such as temperature changes, stress, or pollution), substance P is released, causing redness, warmth, and pain in the affected area.

PROTECTIVE SUGAR A natural humectant used in bath infusions, this sugar (maltodextrin obtained from the hydrolysis of starch or flour) protects the skin from the drying effects of limescale present in water.

SYNERGY A combination of several substances or actions that, when working together, produce an effect greater than the sum of their individual effects.

V

VITAMINS Vitamins are essential substances for growth and the proper functioning of organs. Since not all of them are synthesized by the body, they must be supplied in sufficient quantities to prevent deficiencies and imbalances.

OUR STANDARDS & CERTIFICATIONS

ISO 22716 – Quality & safety

An international reference for good manufacturing practices in cosmetics, ISO 22716 sets out guidelines for production processes to ensure high standards of quality, safety, hygiene, and traceability at every stage.

EcoVadis 2026 – CSR commitment

The EcoVadis assessment reflects our commitment to social and environmental responsibility. It evaluates our practices and initiatives across key areas including environmental impact, ethics, responsible sourcing, and working conditions.

B Corp – Positive impact

B Corp certification reflects our commitment to placing social, environmental, and governance considerations at the heart of our business model. It represents our ongoing commitment to continuous improvement, balancing business performance with positive impact.
